Jacques, 1970 [Prelude](#) Mark Macdonald, 2014 **Stringed Keyboard Instruments** Franz Josef Hirt, 1982-08-21 *A Description and History of the Pianoforte and of the Older Keyboard Stringed Instruments* Alfred James Hipkins, 1896 *Early Keyboard Instruments* Philip James, 1960 The appearance of this book coincides with a remarkable revival of interest in old musical instruments which is no longer confined to a few private enthusiasts It deals with the keyboard instruments excluding the organ which preceded the pianoforte i e the clavichord virginal spinet and harpsichord and with the early history of the pianoforte up to the year 1820 The work which is a reprint of the scarce original edition published in 1930 is illustrated with more than sixty plates taken from illuminated MSS prints etc as well as from the finest examples of the instruments themselves in museums and private collections throughout Europe and America In addition there is a list giving the names and working dates of over two hundred makes of keyboard instruments which should be invaluable to owners and collectors Dust jacket [From Psalter to Piano](#) Nelly van Ree Bernard, 1979 [Harpsichord, Clavichord & Fortepiano](#) Derek Adlam, 2009-06 This book looks at the history of the three types of stringed keyboard instrument that dominated Western music from the sixteenth century to the middle of the nineteenth century The Virginal which provided the musical accompaniment to the reign of Elizabeth 1st was part of the family that also included the harpsichord which was the concert keyboard for over two hundred years and its smaller cousin the spinet which could be found in ladies chambers across Europe But not every polite lady owned a spinet for some this instrument with its plucked strings was altogether too harsh and the clavichord which used flexible quills to stroke the strings was much a much gentler option In the latter part of the eighteenth century a new type of keyboard began to sweep all of these instruments into history the fortepiano the forerunner of the piano This instrument used hammers to strike the strings giving the possibility for the first time of real dynamic contrast **Evolution of Two-manual Stringed Keyboard Instrument** Shuk Ki Wong, 2021 Over the past few centuries manufacturers have been modifying the design of

keyboard instruments as a way to expand the instrument's capabilities these modifications include the keyboard ranges their dynamic levels the pedals the number of manuals as well as electronic augmentations The earliest record of double harpsichords can be found from the last quarter of the 16th century where the manuals were pitched a fourth apart to facilitate transposition Later in the 17th century harpsichords with different numbers of registers and manuals were built a few double manual Italian harpsichords with two 8 registers and one 4 register were made from the middle of the 17th century Harpsichords with richer and fuller sound were also built later in the 18th century opening up a variety of possibilities for new repertoire Later the two manual concept was adapted to the piano and the Mo r piano as well as the hyperpiano represent a culmination in the evolution of keyboard instruments With the expansion of the keyboard's capabilities in the two manual harpsichord players were able to play technically challenging passages in a close position as well as give clarity to dynamic contrasts Composers composed a number of works in response to these innovations ranging from Fran ois Couperin's Pi ces de clavecin J S Bach's Clavier bung II and Goldberg Variations to Ligeti's Continuum This repertoire was written specifically for two manual harpsichords and requires great technical command of the instrument This project explores the history and the repertoire of double manual and other extended keyboard instruments and examines the significance of using such instruments in selected musical examples It also investigates repertoire that can be performed more effectively on a double manual keyboard instead of an ordinary piano due to textural issues overlapped passages and other technical demands *English Stringed Keyboard Instruments and Their Music, 1550-1656* Gordon J.
