## **Strong At The Broken Places Overcoming The Trauma Of Childhood Abuse:**

Strong at the Broken Places Linda Tschirhart Sanford,1991      Strong at the Broken Places Linda T. Sanford,1991 In this moving and authoritative work which combines dedicated research and interviews with victims of childhood abuse and neglect psychotherapist Linda Sanford passionately refutes the received wisdom that such people are trapped in a vicious circle of abuse and will probably become perpetrators of violence themselves In more than seventeen years of working with victims and survivors she discovered that this simplistic formula is far from true Most survivors in her experience break free from the patterns of victimization and abuse and go on to lead healthy and fulfilling lives And the more than twenty interviewed in depth by Sanford provide vivid proof that full recovery is possible As they discuss key issues such as self image intimacy work and spirituality we come to see what enables them and countless others like them to triumph over trauma and become not only strong but often strongest where they ve been most injured strong at the broken places

Strong at the Broken Places Linda Tschirhart Sanford,1992      Survivors of Childhood Sexual Abuse and Midwifery Practice Lis Garratt,2018-11-05 Many midwives will care for women who are survivors of childhood sexual abuse CSA whether these women disclose this or not Pregnant and birthing women commonly experience their bodies becoming public property a variety of sometimes intimate medical procedures and limited choices on where and how care is provided For CSA survivors who have suffered loss of ownership over their bodies as children and may experience recurring feelings of powerlessness and loss of control these factors can combine with impersonal and medicalised settings and practices to deeply traumatic effect Sexual abuse is all about power not sex interviewee Many midwives also experience powerlessness and loss of control as professionals as a result of these same settings and practices and those midwives who are themselves CSA survivors bring a particularly acute awareness of this and of the needs of survivor mothers This unique study sets out to gain a deeper understanding of the needs of these mothers by exploring them alongside the parallel experiences of survivor midwives It explores the insights and reflections they together bring to midwifery and the positive results of more collaborative personal communicative and ultimately empowering practices for all involved The significance of this book is far wider than its immediate subject for it offers us the opportunity to rethink our professional coping strategies If we seek to make all our professional relationships ones of equality and opportunities for growth as would benefit someone who has suffered abuse then we can all grow and flourish from the Foreword by Mavis Kirkham      What's the Good of Counselling & Psychotherapy? Colin Feltham,2002-10-10 What this brilliant book does so well is to produce not just the evidence for the research effectiveness of therapies but makes the moral case for bringing together human psychological welfare needs and the expanding number of skilled ethically sensitive people ready to listen to and respond in the most deeply human and needed way the counsellors and all who work as psychological therapists I strongly recommend this book Graham Curtis Jenkins Counselling in Practice      **Adult Survivors of Incest/childhood Sexual Abuse** ,1997      **Adults Abused as**

**Children** Peter Dale, 1999-02-08 This is a useful book that offers insights into outcomes for a sample of adults who sought help for the effects of their childhood abuse and the affect of the personal qualities and approaches of their therapists. It traverses some controversial ground and because it brings to light issues that are often on the back labelled too hard should be compulsory reading for all the therapists working in this field. International Social Work This book is an extensive overview of practice based research on therapy for adults who were abused as children physically sexually or emotionally. Peter Dale looks in detail at the lessons to be learnt from people's experiences of therapy a relief to find such a comprehensive well researched book on the subject from a psychotherapeutic perspective. Its wider relevance is that we society therapists and service planners in particular must learn from people who have been abused as children so that appropriate and supportive services can be set up. Transformations The PCSR Journal I believe this book based on Peter Dale's research into the experience of 53 clients is of profound importance to practising counsellors trainers and researchers. I recommend this carefully designed and executed piece of research to all BAC readers. Mary Berry Senior Lecturer in Counselling University of Manchester The author has created interesting and thought provoking arguments that provide a balanced analysis of abuse therapy in particular Repression Dissociation and False Memory Retrieval. Clare Young The Journal of Critical Psychology Counselling and Psychotherapy This enlightening book brings together the experiences of both clients and therapists who receive and provide help for the effects of childhood abuse. The book consolidates existing knowledge about child abuse and psychotherapeutic approaches to give an integrated account of counselling and therapy as it relates to adults abused as children. Part One examines research in the fields of child abuse and psychotherapy reviewing historically changing attitudes towards childhood abuse and the consequences of cultural context on approaches to treatment. Part Two reviews the testimonies of the therapeutic process from over 50 clients and therapists including therapists who were themselves abused as children. These testimonies form a basis for the discussion of specific issues such as becoming a client talking about abuse and what happens when things go wrong in therapy. Part Three tackles the controversy surrounding recovered memory and child abuse and assesses the implications for the future direction of counselling and therapy.
