## Struggle For Auto Safety:

**The Struggle for Auto Safety** Jerry L. Mashaw, David L. Harfst, 2013-10-01 Combining superb investigative reporting with incisive analysis Jerry Mashaw and David Harfst provide a compelling account of the attempt to regulate auto safety in America. Their penetrating look inside the National Highway Traffic Safety Administration NHTSA spans two decades and reveals the complexities of regulating risk in a free society. Hoping to stem the tide of rising automobile deaths and injuries Congress passed the National Traffic and Motor Vehicle Safety Act in 1966. From that point on automakers would build cars under the watchful eyes of the federal regulators at NHTSA. Curiously however the agency abandoned its safety mission of setting monitoring and enforcing performance standards in favor of the largely symbolic act of recalling defective autos. Mashaw and Harfst argue that the regulatory shift from rules to recalls was neither a response to a new vision of the public interest nor a result of pressure by the auto industry or other interest groups. Instead the culprit was the legal environment surrounding NHTSA and other regulatory agencies such as the EPA OSHA and the Consumer Product Safety Commission. The authors show how NHTSA's decisions as well as its organization processes and personnel were reoriented in order to comply with the demands of a legal culture that proved surprisingly resistant to regulatory pressures. This broad gauged view of NHTSA has much to say about political idealism and personal ambition scientific commitment and professional competition long range vision and political opportunism. A fascinating illustration of America's ambivalence over whether government is a source of or solution to social ills. *The Struggle for Auto Safety* offers important lessons about the design and management of effective health and safety regulatory agencies today.

*The Coming Struggle for Auto Safety* Ralph Nader, 1966

Car

Safety Wars Michael R. Lemov, 2015-03-19 Car Safety Wars is a gripping history of the hundred year struggle to improve the safety of American automobiles and save lives on the highways. Described as the equivalent of war by the Supreme Court the battle involved the automobile industry unsung and long forgotten safety heroes at least six US Presidents a reluctant Congress new auto technologies and most of all the mindset of the American public would they demand and be willing to pay for safer cars. The Car Safety Wars were at first won by consumers and safety advocates. The major victory was the enactment in 1966 of a ground breaking federal safety law. The safety act was pushed through Congress over the bitter objections of car manufacturers by a major scandal involving General Motors its private detective Ralph Nader and a gutty cigar chomping old politician. The act is a success story for government safety regulation. It has cut highway death and injury rates by over seventy percent in the years since its enactment saving more than two million lives and billions of taxpayer dollars. But the car safety wars have never ended. GM has recently been charged with covering up deadly defects resulting in multiple ignition switch shut offs. Toyota has been fined for not reporting fatal unintended acceleration in many models. Honda and other companies have for years sold cars incorporating defective air bags. These current events suggesting a failure of safety regulation may serve to warn us that safety laws and agencies created with good intentions can be corrupted and strangled.
