Struggle Is One:

The Struggle for Democracy Christopher Meckstroth, 2015-07-01 Revolutionaries counter revolutionaries and reformers the world over appeal to democracy to justify their actions But when political factions compete over the right to act in the people's name who is to decide Although the problem is as old as the great revolutions of the seventeenth and eighteenth centuries events from the Arab Spring to secession referendums suggest that today it is hardly any closer to being solved This book defends a new theory of democratic legitimacy and change that provides an answer Christopher Meckstroth shows why familiar views that identify democracy with timeless principles or institutions fall into paradox when asked to make sense of democratic founding and change Solving the problem he argues requires shifting focus to the historical conditions under which citizens work out what it will mean to govern themselves in a democratic way The only way of sorting out disputes without faith in progress is to show in Socratic fashion that some parties' claims to speak for the people cannot hold up even on their own terms Meckstroth builds his argument on provocative and closely argued interpretations of Plato Kant and Hegel suggesting that familiar views of them as foundationalist metaphysicians misunderstand their debt to a method of radical doubt pioneered by Socrates Recovering this tradition of antifoundational argument requires rethinking the place of German idealism in the history of political thought and opens new directions for contemporary democratic theory The historical and Socratic theory of democracy the book defends makes possible an entirely new way of approaching struggles over contested notions of progress popular sovereignty political judgment and democratic change

Struggling with God Simon D Podmore, 2013-10-31 Invoking the biblical motif of Jacob's struggle with the Face of God Genesis 32 Simon D Podmore undertakes a constructive theological account of spiritual trial (tentatio) known in German mystical and Lutheran tradition as *Anfechtung* in relation to enduring questions of the otherness and hiddenness of God and the self the problem of suffering and evil the freedom of Spirit and the anxious relationship between temptation and ordeal fear and desire This book traces a genealogy of spiritual trial from medieval German mystical theology through Lutheran and Pietistic thought Tauler Luther Arndt Boehme and reconstructs Kierkegaard's innovative yet under-examined recovery of the category *Anfægtelse* a Danish cognate for *Anfechtung* within the modern context of the spiritless decline of Christendom Developing the relationship between struggle (*Anfechtung*) and release (*Gelassenheit*) Podmore proposes a Kierkegaardian theology of spiritual trial which elaborates the kenosis of the self before God in terms of Spirit's restless longing to rest transparently in God Offering an original rehabilitation of the temptation of spiritual trial this book strives for a renewed theological hermeneutic which speaks to the enduring human struggle to realise the unchanging love of God in the face of spiritual darkness
