## Stuck In The Middle:

*Trapped in the Middle?* José Antonio Alonso, José Antonio Ocampo, 2020-10-22 There is growing evidence that overcoming the low income threshold and reaching middle income status is not sufficient for countries to converge toward high income levels. Few middle income countries have successfully completed that transit in recent decades with the majority remaining in the middle income group and so facing what has come to be called the middle income trap. It is therefore essential to explore whether middle income traps really exist and if they do how these pitfalls are manifested what their causes are what economic policy measures are required to escape from them and what international cooperation can do to support this process. *Trapped in the Middle* brings together diverse perspectives on these important questions providing new evidence and analytical approaches to enrich the debate on the domestic and international challenges faced by a significant number of middle income countries in which over three quarters of the global population live

**Strategisch management** Noël Houthoofd, 2005    [Competitive Advantage](#) Michael E. Porter, 2008-06-30 Now beyond its eleventh printing and translated into twelve languages Michael Porter's *The Competitive Advantage of Nations* has changed completely our conception of how prosperity is created and sustained in the modern global economy. Porter's groundbreaking study of international competitiveness has shaped national policy in countries around the world. It has also transformed thinking and action in states cities companies and even entire regions such as Central America. Based on research in ten leading trading nations *The Competitive Advantage of Nations* offers the first theory of competitiveness based on the causes of the productivity with which companies compete. Porter shows how traditional comparative advantages such as natural resources and pools of labor have been superseded as sources of prosperity and how broad macroeconomic accounts of competitiveness are insufficient. The book introduces Porter's diamond a whole new way to understand the competitive position of a nation or other locations in global competition that is now an integral part of international business thinking. Porter's concept of clusters or groups of interconnected firms suppliers related industries and institutions that arise in particular locations has become a new way for companies and governments to think about economies assess the competitive advantage of locations and set public policy. Even before publication of the book Porter's theory had guided national reassessments in New Zealand and elsewhere. His ideas and personal involvement have shaped strategy in countries as diverse as the Netherlands Portugal Taiwan Costa Rica and India and regions such as Massachusetts California and the Basque country. Hundreds of cluster initiatives have flourished throughout the world. In an era of intensifying global competition this pathbreaking book on the new wealth of nations has become the standard by which all future work must be measured
