Gabby Logan     The Ethics of Commercial Surrogate Motherhood Scott Rae,1994 This study addresses the two most controversial issues in surrogate motherhood the commercial aspect of the practice and the issue of parental rights After setting the legal and moral backdrop of procreative liberty in general Rae argues that commercial surrogacy is the moral equivalent of baby selling and should be prohibited Add to this the potential for exploitation of the surrogate in practices that are already in motion and it is not hard to see the potential for harm to the parties involved The book concludes with a survey of state and international law to date on surrogacy and a sample legislative proposal that could be adopted by states that are currently deliberating the issues The commercial aspect of surrogacy makes it a potentially profitable business not only for the surrogates but also for the brokers who facilitate the arrangements This book promotes careful forethought a reconsideration of definitions of parenthood and a thorough examination of cases past and pending     **Surrogacy** National Bioethics Consultative Committee (Australia),1990 Summary on cover Examines principles options and recommendations for Australian health ministers     **Spare Rib** ,1989     **Indian Private International Law** Stellina Jolly,Saloni Khanderia,2021-10-07 This book provides an authoritative account of the evolution and application of private international law principles in India in civil commercial and family matters Through a structured evaluation of the legislative and judicial decisions the authors examine the private international law in the Republic and whether it conforms to international standards and best practices as adopted in major jurisdictions such as the European Union the United Kingdom the United States India s BRICS partners Brazil Russia China and South Africa and other common law systems such as Australia Canada New Zealand and Nepal Divided into 13 chapters the book provides a contextualised understanding of legal transformation on key aspects of the Indian conflict of law rules on jurisdiction applicable law and the recognition and enforcement of foreign judgments or arbitral awards Particularly fascinating in this regard is the discussion and focus on both traditional and contemporary areas of private international law including marriage divorce contractual concerns the fourth industrial revolution product liability e commerce intellectual property child custody surrogacy and the complicated interface of Sharia in the conflict of law framework The book deliberates the nuanced perspective of endorsing the Hague Conference on Private International Law instruments favouring enhanced uniformity and predictability in matters of choice of court applicable law and the recognition and enforcement of foreign judgments The book s international and comparative focus makes it eminently resourceful for legislators the judges of Indian courts and other interested parties such as lawyers and litigants when they are confronted with cross border disputes that involve an examination of India s private international law The book also provides a comprehensive understanding of Indian private international law which will be useful for academics and researchers looking for an in depth discussion on the subject     **Classic Cases in Medical Ethics** Gregory E.
