Research Design and Evaluation in Speech-language Pathology and Audiology Franklin H. Silverman,1985

KEY BENEFIT Almost all of the 60 000 speech language pathologists and audiologists in the United States now have to be able to document convincingly the positive impact of intervention on their clients if they are to be competitive for third party funding Most are not familiar with the research methodologies needed to do it in a way that funding agencies are highly likely to regard as being scientific objective competent and valid This book focuses on conducting and consuming clinical research By not assuming any prior knowledge of statistics this book teaches how to interpret and critically evaluate the data analyses and conclusions of studies in which statistics are used It also summarizes the legal and ethical aspects of clinical research Additionally the widespread availability of software for computing statistics by issuing a command or two has resulted in a shift in emphasis from knowing how to compute statistics to knowing when to use the various statistics and how to appropriately interpret them This book reflects this change in emphasis Written as a professional book for speech language pathologists and audiologists it will enable them to document the impacts of intervention on their clients in ways that medical insurance programs and public school administrators are likely to regard as being both scientific and valid

Handbook of Clinical Audiology Jack Katz,1978 **Evaluating Research in Speech Pathology and Audiology** Ira M. Ventry,Nicholas Schiavetti,1986 *Research Needs in Speech Pathology and Audiology* American Speech and Hearing Association. Research Committee,1959

Professional Issues in Speech-language Pathology and Audiology Rosemary Lubinski, Lee Ann C. Golper, Carol Frattali,2007 This book provides comprehensive coverage of the issues critical to professional practice in communication sciences The text is multi contributed and each chapter is written by a leading expert in the field This is the most up to date text on the market and it provides in depth coverage of the recently updated 2005 Standards of Clinical Competence The text is clearly organized and highly approachable for readers and it provides a number of excellent pedagogical features such as case studies tables and decision trees to help reinforce the material **Journal of Speech and Hearing Research** ,1996 Adult Audiology Dafydd Stephens,1987
