Survival Indonesia ,1986 *Education in Indonesia* Daniel Suryadarma,Gavin W. Jones,2013 In Indonesia as elsewhere in Asia education will inevitably play a key role in the national development experience as the twenty first century unfolds Not much international attention is paid to how the education sector is faring in Indonesia but that is not because nothing is happening The past decade has seen major changes in the structure of the education system and in the schooling trajectories of Indonesian children and adolescents The administration of primary and secondary education has been decentralized to the regions A new paradigm of school based management has been introduced Public spending on education has finally reached one fifth of total government spending as required by law But although enrolment rates at all levels continue to increase the quality of education remains low and has not improved and the tertiary sector continues to experience problems of autonomy and unsatisfactory performance **Child Survival in Indonesia** Sahat Sitohang,1986 **On Cassette** ,1991
