ABA Journal ,1987-10-01 The ABA Journal serves the legal profession Qualified recipients are lawyers and judges law students law librarians and associate members of the American Bar Association **Between Truth and Falsity: Liberal Education and the Arts of Discernment** Karim Dharamsi,David Ohreen,2021-04-06 It seems we are awash in information From the moment we wake until we turn over our phones at night we are bombarded with images and messages news and information from a confounding number of sources But as the amount of information available to us increases ever more rapidly its quality and reliability seem less credible Russian troll bots 4chan Breitbart and Rebel Media challenge our credulity but they do so by mimicking aesthetic registers consumers expect of traditional media outlets Moreover traditional news sources both privately owned and public broadcasters already weakened by eroding revenue cuts to budgets and shifting demographics are under sustained attack from those who wish to damage their ability to hold powerful people to account Instead of a multi perspectival approach which seeks to report to the public the many ways to address a particular issue taking the reporter s role as neutral with regard to outcome fake or ideologically driven news sources compete for audience attention and faithfulness often using emotion to rally people toward a certain political cause or issue Academics meanwhile have their work attacked and undermined by people or groups seeking to advance political or economic interests They are told they too are political actors one more voice in a messy public arena instead of a font of reliable information and knowledge While academics continue to believe that their work at least in part enhances our understanding of the world and informs debate how do we know that their conclusions are indeed more reliable than their critics in the post truth era Between Truth and Falsity Liberal Education and the Arts of Discernment will aid academics and students seeking to better grasp the value of liberal education within this post truth era It seeks to advance pedagogical ideas in order to fight factual erosion and reinforce intellectual capacities that are able to critically assess the chaos of information enveloping all segments of society This volume will therefore be of particular interest to academics and university educators working in higher education graduate students theorizing the nature of media and the role of higher education undergraduates studying liberal education and the nature of the university and those thinking about liberal education Contextual Authority and Aesthetic Truth James S. Hans,1992-07-01 This book explores the relationship between authority and context and attempts to establish the ways in which authority is a function of a particular agent or set of agents and the degree to which it is a product of a context rather than an agent The work is not a sociological or psychological study but rather a literary philosophical speculation into the roots of our conceptions of authority It declares all authority to be aesthetic in nature and is based on an analysis of several key texts from various different cultural backgrounds Foucault Weber Nietzsche Confucius and Homer Nietzsche, Genealogy, Morality Richard Schacht,1994-06-15 Nietzsche s On the Genealogy of Morals has become a prominent text of recent Western philosophy An influence on psychoanalysis antihistoricism and poststructuralism and an

abiding challenge to ethical theory the philosopher s book addressed many of the major philosophical problems and possibilities of modernity In this collection of essays focusing on Nietzsche s book twenty five philosophers offer discussions of the book s central themes and concepts They explore such notions as resentment asceticism slave and master moralities and what Nietzsche calls genealogy and its relation to other forms of inquiry in his work

Dramatic Disgust Sarah J. Ablett,2020-07-30 Aesthetic disgust is a key component of most classic works of drama because it has much more potential than to simply shock the audience This first extensive study on dramatic disgust places this sensation among pity and fear as one of the core emotions that can achieve katharsis in drama The book sets out in antiquity and traces the history of dramatic disgust through Kant Freud and Kristeva to Sarah Kane s in yer face theatre It establishes a framework to analyze forms and functions of disgust in drama by investigating its different cognates miasma abjection etc Providing a concise argument against critics who have discredited aesthetic disgust as juvenile attention grabbing Sarah J Ablett explains how this repulsive emotion allows theatre to dig deeper into what it means to be human

Pythagoras and the Doctrine of Transmigration James Luchte,2009-08-15 The mythical narrative of transmigration tells the story of myriad wandering souls each migrating from body to body along a path of recurrence amid the becoming of the All In this highly original study James Luchte explores the ways in which the concept of transmigration is a central motif in Pythagoras philosophy representing its fundamental meaning Luchte argues that the many strands of the tale of transmigration come together in

the Pythagorean philosophical movement revealing a unity in which for Pythagoreans existence and eschatology are separated only by forgetfulness Such an interpretation that seeks to retrieve the unity of Pythagorean thought goes against the grain of a long standing tradition of interpretation that projects upon Pythagoras the segregation of mysticism and science Luchte lays out an alternative interpretation of Pythagorean philosophy as magical in the sense that it orchestrates a holistic harmonization of theoria and praxis and through this reading discloses the radical character of Pythagorean philosophy
