**Who Benefits From Special Education?** Ellen A. Brantlinger, 2006-08-15 Who Benefits From Special Education Remediating Fixing Other People's Children addresses the negative consequences of labeling and separating education for students with disabilities the cultural biases inherent in the way that we view children's learning difficulties the social construction of disability the commercialization of special education and related issues The theme that unifies the chapters is that tension exists between professional ideology and practice and the wishes and expectations of the recipients of professional practice children adolescents and adults with disabilities and their families These voices have rarely taken center stage in formulating important decisions about the quality and characteristics of appropriate practice The dominant view in the field of special education has been that disability is a problem in certain children rather than an artifact that results from the general structure of schooling it does not take into consideration the voices of people with disabilities their families or their teachers Offering an alternative perspective this book deconstructs mainstream special education ideologies and highlights the personal perspectives of students families and front line professionals such as teachers and mental health personnel It is particularly relevant for special education disabilities studies graduate students and faculty and for readers in general education curriculum studies instruction theory and critical theory Test Bank to Accompany Exceptional Children an Introduction to Special Education Seventh Edition [by] William L.
