Text Tradition A Guide To The Old Testament:

The Book of Tobit: Text, Tradition, Theology Géza Xeravits, József Zsengellér, 2005-07-01 This volume contains the proceedings of the first of an international series of conferences on the deuterocanonical literature organised by the Shimeon Centre in Pécs, Hungary. Renowned international scholars of the field treat questions of text in the Book of Tobit, the underlying traditions and theological questions. The importance of the deuterocanonical corpus is widely recognised in contemporary scholarship. This is marked by the growing number of related publications. Yet it remains important to create an opportunity to work through the entire deuterocanonical material as such. These conferences aim to provide a yearly forum for discussion of this literature. The next conferences planned are on Maccabees 2005, Sirach 2006, Wisdom 2007, Additions 2008 and Judith 2009, and as a result the organisers plan to publish five more volumes. Together with the present volume these will cover the entire deuterocanonical corpus.

A ^AGuide to Early Jewish Texts and Traditions in Christian Transmission Gabriele Boccaccini, Lorenzo DiTommaso, David Hamidovic, Michael E. Stone, 2019-10-04 The Jewish culture of the Hellenistic and early Roman periods established a basis for all monotheistic religions but its main sources have been preserved to a great degree through Christian transmission. This Guide is devoted to problems of preservation, reception and transformation of Jewish texts and traditions of the Second Temple period in the many Christian milieus from the ancient world to the late medieval era.

Biblical Theology of Life in the Old Testament Albert J. Coetsee, Francois P. Viljoen, 2021-11-30

Life is a primary theme in Scripture expressed in the rich diversity of the various books, corpora and genres of Scripture. Much has been published on what Scripture teaches about life and death. To date, however, no comprehensive biblical theology in which the concept of life is traced throughout the different books and corpora of the Old and New Testaments has

been published It is this lacuna that this book aims to fill assuming that such an approach can provide a valuable contribution to the theological discourse on life and related concepts The primary aim of this book is to give an indication of the different nuances of the concept of life in the various books and corpora of the Old and New Testament by providing the reader with a book by book overview of the concept of life in Scripture The secondary aim is to give an indication of the overall use and function of the concept of life in the Old Testament the New Testament and Scripture as a whole The latter is provided by using the findings of the book by book overview of the concept of life in Scripture to draw the lines together **A Shilling Book of Old Testament History for National and Elementary Schools ...** George Frederick Maclear,1899 **A Short History of the Hebrew Text of the Old Testament** Thomas Hunter Weir,1899 **An Introduction to the Old Testament in Greek: The history of the Greek Old Testament and of its transmission** Henry Barclay Swete,1900
