It is an excellent resource for all educators who work on college campuses.

Marcia Baxter Magolda, Distinguished Professor, Educational Leadership, Miami University. This is an invaluable work for anyone seeking an introduction to college student development theories or those seeking to update their existing knowledge. It offers a thorough and complex review of both the foundational theories and the newer, often more culturally relevant theories and models.

Raechele L. Pope, program coordinator, Higher Education Program, University at Buffalo. The original book was a tremendous contribution to the field of higher education and especially student affairs. After more than ten years, this revision is a timely and focused enhancement to the literature that nurtures quality professionals to think differently about topics relevant to our field.

Well done a second time around! Gregory Roberts, executive director, ACPA College Student Educators International. **Catalogue**. California State Teacher's College (San Jose, Calif.), 1895. Promoting Student Learning and Student Development at a Distance. Alan M. Schwitzer, Julie R. Ancis, Nina

Brown, 2000-12-26 With today's telecommunication capabilities and advanced information technologies more and more learners can complete entire academic degree programs without ever setting foot in their institution's main campus. In fact, over 100 American institutions already offer distance learning degree programs or certificate courses and more are on the way. Promoting Student Learning and Student Development at a Distance meets this growing trend head-on with its definitive examination of contemporary electronic classroom environments. Drawing from institutions all over the United States, the book outlines factors and practices that both directly and indirectly influence the adjustment, learning, and development of distance students. It also provides a detailed overview of student affairs responses to distant student needs, stressing the importance of building communities at a distance and using a case study to illustrate the design of distance student services. Finally, and perhaps most importantly, it offers concrete strategies for improvement, such as the creation of four new roles for student development professionals: as distance educators, Faculty Development Provider, Academic Liaison, Program Designer, and Outcome Evaluator. As a result, Promoting Student Learning and Student Development at a Distance is more than just a valuable resource to the learner and educator alike; it is an integral ingredient to the future success of tomorrow's student.
