Susana y Javier en Sudamerica Marvin Wasserman, Carol Wasserman, 1993 To give students enjoyable reading material through which they can learn a great deal about the people of South America and about their lives and customs *Southern Hemisphere Palaeobiogeography of Triassic-Jurassic Marine Bivalves* Susana E. Damborenea, Javier Echevarría, Sonia Ros-Franch, 2012-09-27 Palaeobiogeography is a complex subject which processes information provided by both Biology and Earth Sciences It is conceptually and philosophically equivalent to neobiogeography Nevertheless its methods are somewhat different since it is limited by the incompleteness of the fossil record On the other hand it has direct access to the time dimension a key ingredient of organic evolution Mesozoic benthonic mollusks and especially bivalves have a great potential for palaeobiogeographical analysis due to their commonly good preservation abundance diversity and high dispersion potential at the larval stage From a merely descriptive point of view the analysis of their distribution shows latitudinal gradients and distributional patterns both at regional and global scales which are the basis for the recognition of biochoremas or palaeobiogeographical units of different ranks Moving forward towards a causal palaeobiogeography these organisms also provide interesting insight into particular biogeographical questions such as bipolarity and its origin The evolution in time of the recognized biochoremas can be discussed in relation to palaeoclimas and extinction events Finally some of the results obtained from the analysis of the distribution of past bivalve biotas were even used to propose and discuss the development of marine corridors and argue about the distribution of continents in the past *El-Hi Textbooks & Serials in Print* Bowker Editorial Staff, 2004-02

En esta publicación se recogen los trabajos presentados en el XXI Congreso Nacional de Historia del Arte CEHA celebrado en el Palacio de la Magdalena de Santander entre los días 20 al 23 de septiembre de 2016. El eje vertebrador de dicho congreso giró en torno a una temática a la vez monográfica y transversal: LA FORMACIÓN ARTÍSTICA. Se aborda este objetivo desde la doble perspectiva que plantean los dos protagonistas principales del diálogo artístico: el creador y el espectador, pasando por el historiador del arte como mediador entre ambos. Empleando este hilo conductor se traza el rico panorama investigador nacional tratando de reflejar las principales orientaciones metodológicas de la disciplina, así como las líneas de trabajo más consolidadas y las emergentes. Las aportaciones en cada uno de los seis bloques desde el gremio: la formación académica o la universitaria, la educación de la mirada, la crisis de la Historia del Arte, las fuentes, la historiografía y la literatura artística y
