## **Sustainability And Degradation In Less Developed Countries Immolating The Future:**

*Sustainability and Degradation in Less Developed Countries* Sarah Lumley, 2018-02-06 This title was first published in 2002 The concept of sustainable development has increasingly gained currency as a policy determination tool yet its interpretation and application is widely contested especially with respect to the role of economics in the facilitation of environmentally and socially sustainable outcomes Sarah Lumley assesses some of the fundamental assumptions of mainstream economic theory as part of an analysis of farmers motives in adopting soil conservation on degraded lands in the Philippines The text has a strong focus on the theoretical and practical interactions between environmental economic and social aspects of sustainable development it is both multidisciplinary and transdisciplinary and draws on conceptually important points of each discipline that it encompasses

**Encyclopedia of Sustainability** Robin Morris Collin, Robert William Collin, 2009-12-09 This three volume encyclopedia explores the concept of sustainability in the contexts of the environment economics and justice This expansive encyclopedia breaks new ground giving definition and focus to an urgent and much talked about topic that is extraordinarily wide ranging and all too often misunderstood As the first major reference work in its field the three comprehensive volumes span the entire scope of sustainability from ecological concepts to financial concerns to public policy and community action giving readers a solid foundation from which to think critically about efforts to make a more sustainable world The Encyclopedia of Sustainability comprises three volumes each dedicated to one of three equally important contexts in which the term is used environment and ecology business and economics and equity and fairness Each volume provides authoritative but accessible coverage of basic concepts and terms as well as policy initiatives controversies and future trends Volumes also include biographical sketches of important contributors to sustainability efforts from the scientific economic public policy and activist realms plus extensive listings of print and online resources for further exploration

**Fair Trade and Organic Initiatives in Asian Agriculture** Rie Makita, Tadasu Tsuruta, 2017-03-16 In addition to constituting an evolving area of inquiry within the social sciences agricultural certification and particularly its Fair Trade and organic components has emerged as a significant tool for promoting rural development in the global South This book is unique for two reasons First in contrast to existing studies that have tended to examine Fair Trade and organic certification as independent systems the studies presented in this book reveal their joint application within actual production settings demonstrating the greater complexity entailed in these double certification systems through the generation of contradictions and tensions compared with single certification systems Second the authors who are both Asian reveal the realities of applying Fair Trade and organic certification systems within Asian agriculture In doing so they challenge the fact that most Fair Trade studies have been undertaken by Western scholars who have tended to focus on Latin American and African producers Drawing on a wealth of grounded case studies conducted in India Thailand and the Philippines this pioneering study on double certification makes a significant contribution to studies on Fair Trade and organic agriculture

beyond Asia     **Governing the Environment** Albert Breton,2009-01-01 This volume the second by this editorial team addresses many of the issues to be resolved if we are to manage environmental public goods efficiently and sustainably What is the right scale of governance What makes for effective public private partnership What makes governance systems effective When do we need supranational governance Given the complex nature of social ecological systems these are hard questions Breton and his collaborators answer them in ways that are both convincing and insightful A very valuable contribution Charles Perrings Arizona State University US Environmental policy focusing on the control of pollution and on over exploitation easily overlooks the extensive range of interconnections between economic activities and natural systems In this timely book a number of specialists examine how crucial aspects of complex environmental problems and policy can be dealt with in decentralized governmental systems Bridging the gap between the conventional environmental federalism literature and advances in environmental and ecological economics that have been made over the last two decades this innovative book explores alternative solutions to the problem of assigning powers over the environment It deals with important issues in environmental governance including interjurisdictional contracting discounting risk management eliciting compliance and environmental accounting in each case concentrating on the comparative advantage of governments at different jurisdictional levels in implementing optimal policies Offering a comprehensive approach to environmental policy this book will be a valuable resource for researchers and students in environmental economics environmental politics governance and decentralization It will also benefit practitioners and policy makers with responsibilities over the environment     *Democracy and Nationalism in Southeast Asia* Jacques Bertrand,2021-04-29 Jacques Bertrand offers a comparative historical analysis of five nationalist conflicts over several decades in Southeast Asia Using a theoretical framework to explain variance over time and across cases he challenges and refines existing debates on democracy s impact and shows that while democratization significantly reduces violent insurgency over time it often introduces pernicious effects that fail to resolve conflict and contribute to maintaining deep nationalist grievances Drawing on years of detailed fieldwork Bertrand analyses the paths that led from secessionist mobilization to a range of outcomes These include persistent state repression for Malay Muslims in Thailand low level violence under a top down special autonomy for Papuans reframing of mobilizing from nationalist to indigenous peoples in the Cordillera a long and broken path to an untested broad autonomy for the Moros and relatively successful broad autonomy for Acehnese     [International Bibliography Of Economics 2003](#) Compiled by the British Library of Political and Economic Science,2004-12 First published in 1952 the International Bibliography of the Social Sciences anthropology economics political science and sociology is well established as a major bibliographic reference for students researchers and librarians in the social sciences worldwide Key features Authority Rigorous standards are applied to make the IBSS the most authoritative selective bibliography ever produced Articles and books are selected on merit by some of the world s most expert librarians and academics Breadth today the IBSS covers over
