Swedo Finnish Short Stories:

Swedo-Finnish Short Stories George C. Schoolfield, 1975 A History of Finland's Literature George C. Schoolfield, 1998-01-01 The literature of Finland is bilingual with lively and extensive traditions in both Finnish and Swedish. This history covers both literary traditions in detail. The volume's first section on Finnish language literature consists of a series of connected chapters by leading authorities within the field. It opens with a consideration of the folk literature in Finnish that flourished during the Middle Ages and then examines the more recent history of Finnish language literature with special emphasis placed on writings from the nineteenth and twentieth centuries. The second part of the book provides an examination of Finland's Swedish language literature from the late fifteenth century through the early nineteenth century. Subsequent chapters trace developments in Finland's Swedish language literature during the nineteenth and twentieth centuries. A survey of children's literature from both the Finnish and Swedish language traditions concludes this exceptionally thorough volume Finnish Short Stories, 1982 The Oxford Guide to Literature in English Translation Peter France, 2000 Translation has been a crucial process in world culture over the past two millennia and more. In the English speaking cultures many of the most important texts are translations from Homer to Beckett, the Bible to Freud. Although recent years have seen a boom in translation studies there has been no comprehensive yet convenient guide to this essential element of literature in English. Written by eminent scholars from many countries the Oxford Guide to Literature in English Translation meets this need and will be essential reading for all students of English and comparative literature. It highlights the place of translation in our culture encouraging awareness of the issues raised making the translator more visible. Concentrating on major writers and works it covers translations out of many languages from Greek to Korean from Swahili to Russian. For some works e.g. Virgil's Aeneid which have been much translated the discussion is historical and critical showing how translation has evolved over the centuries and bringing out the differences between versions. Elsewhere with less familiar literatures the Guide examines the extent to which translation has done justice to the range of work available. The Guide is divided into two parts. Part I contains substantial essays on theoretical questions, a pioneering outline of the history of translation into English and discussions of the problems raised by specific types of text e.g. poetry, oral literature. The second much longer part consists of entries grouped by language of origin some are devoted to individual texts e.g. the Thousand and One Nights or writers e.g. Ibsen, Proust but the majority offer a critical overview of a genre e.g. Chinese poetry, Spanish Golden Age drama or of a national literature e.g. Hungarian, Scottish, Gaelic. There is a selective bibliography for each entry and an index of authors and translators Chicorel Index to Short Stories in Anthologies and Collections, 1975 **Books from Finland**, 1988 **Scandinavian Literature in English Translation, 1928-1977** Maria Ng, 1978 The Penguin Companion to European Literature Anthony Thorlby, 1969 **The Foreign Church Chronicle and Review**, 1887 Dec issue in each v includes the report of the Anglo Continental Society Books and Pamphlets, Including
