Kerry Turner,Ian Bateman,2001 Sustainability and sustainable development have become key phrases of the politics of the environment They are at the centre of much environmental discourse and indeed of the series of which this collection is a part This major volume brings together a number of recent papers that address the ethical and political assumptions that underlie different uses of those concepts Part I examines equality and justice Part II focuses on justice equality and future generations Part III deals with the moral considerability of the non human world and Part IV looks at environmental justice Part V examines economic valuation and Part VI discusses sustainability Part VII covers sustainability and nature This volume will be an invaluable source of reference for scholars of environmental economics environmental political theory environmental ethics and geography and all those concerned with the philosophical foundations of sustainability **Ethics** Jacques P. Thiroux,1995 Using a clear jargon free style and a flexible organization this book introduces readers with little or no background in philosophy or ethics to traditional and contemporary ethical theory Through an abundance of examples and case studies it shows them how to set up their own systematic rational ethics and how to apply ethical theories to traditional and contemporary moral issues [Environmental Ethics](#) ,2006 **Handbook of Moral Philosophy** Henry Calderwood,1888 **Morals Based on Needs** Ragnar

Ohlsson,1995-04-11 The concept of need has been analyzed by numerous modern philosophers While they usually view need as a necessary condition for avoiding harm Morals Based on Needs gives basic needs a clarifying new definition in terms of necessary and sufficient condition for an acceptable life Ohlsson investigates the connections between needs and moral norms creating a new foundation for ethics *Utilitarianism* John Stuart Mill,1871 *Current Legal Theory* ,1992
