which stretches from earth to he aven The sun and the moon were the children of a giant whom two wolves chased forever around the earth The stars were sparks from the fire land of the south set in the heavens by the gods Night was a giantess dark and swarthy who rode in a car drawn by a steed the foam from whose bits sometimes covered the earth with dew And Day was the son of Night and the steed which he rode lighted all the sky and the earth with the beams which glistened from his mane
