religious frameworks with the emergence of new religious movements both peaceful and violent and a rise in popularity of spirituality and non religious worldviews which provide alternate frameworks for living healthy and ethical lives In order to prepare today s student for tomorrow s world one which is confronted by a range of risks and crises and which is being shaped by rapidly changing technologies educators and researchers are investigating new ways of equipping students to deal with these challenges and opportunities including the nurturing of spiritual wellbeing This book brings together the voices of many experienced educators to discuss ways to re enchant education and re enliven learning programs in response to these 21st century issues in an increasingly global and interconnected world It examines a range of international contexts including secular and religious educational settings and provides an avenue for visionary voices that identify problems and offer solutions to help shape a more promising education system that will prepare children more constructively and beneficially to flourish in their future worlds

Liffey and Lethe Patrick R. O'Malley,2017-03-01 Focusing on literary and cultural texts from the late eighteenth century to the early twentieth Patrick R O Malley argues that in order to understand both the literature and the varieties of nationalist politics in nineteenth century Ireland we must understand the various modes in which the very notion of the historical past was articulated He proposes that nineteenth century Irish literature and culture present two competing modes of political historiography one that eludes the unresolved wounds of Ireland s violent history through the strategic representation of a unified past that could be the model for a liberal future and one that locates its roots not in a culturally triumphant past but rather in an account of colonial and specifically sectarian bloodshed and insists upon the moral necessity of naming that history From myths of pre Christian Celtic glories to medieval Catholic scholarship to the rise of the Protestant Ascendancy to narratives of colonial violence against Irish people by British power Irish historiography strove to be the basis of a new nationalism following the 1801 Union with Great Britain and yet it was itself riven with contention
