**The Almain in Britain, c.1549-c.1675** Ian Payne,2017-07-05 This complete scholarly edition of the collection of manuscript choreographies from c 1565 c 1675 associated with the Inns of Court is the first full length study of these sources to be published It offers practical reconstructions of the dances and provides a selection of musical settings simply but idiomatically arranged for four part instrumental ensemble or keyboard Part One centres on the manuscript sources which transmit the Almain and on the trends and influences that shaped its evolution in Britain from c 1549 to c 1675 taking account of both music and choreography In viewing the Almain within its broader historical context Ian Payne throws new light on the dance arguing that together with the measures which accompany it in the choreographies it owes an even greater debt to the English country dance than has hitherto been acknowledged a popular style that received its fullest expression in Playford's English Dancing Master of 1651 The second part of the book focuses on the dances themselves The steps are described in detail and reconstructions provided for the nine Almains and some of the other measures included in the manuscripts Part Three comprises a complete critical edition of the manuscripts These easily performable versions of the dances will be an invaluable aid to those wishing to learn the dances reconstruct them for stagings of Shakespeare's plays or Jacobean masques and for dance historians    Bible Music: being variations, in many keys, or musical themes from Scripture, etc Francis JACOX,1871    *The Hamilton Literary Magazine* ,1875    **Bible Music** Francis Jacox,1871

Werner,1897    *Defining Strains* James Porter,2007 This volume aims to fill a historical gap in the recent coverage of musical life in Scotland The seventeenth century in Scotland as in Europe was one of religious controversy and civil strife The period has thus been neglected by music historians in comparison with the centuries before and after it But despite loss of royal patronage after 1603 Scots still made their impact as composers and preservers of their musical language It was in this century that a distinctive Scots melodic idiom crystallised as those defining strains laid the basis for the flowering of song both Highland and Lowland a century later At this time Scots also took a lively interest in the music of England Ireland France and Italy as is evident in the music

manuscripts of the period This volume is the result of new research into such key figures as the composers Tobias Hume William Kinloch Patrick MacCrimmon and the Aberdeen publisher John Forbes it looks at the important manuscripts including those of the classical bagpipe harp lute and keyboard repertoire as well as imported French and Italian music it deals with burgh and ceremonial music secular songs and their texts and the psalm singing that dominated public life The essays are newly written from a range of specialties including those of manuscript source analysis text and music relationships social contexts and performance practice      *Overland Monthly and Out West Magazine* ,1891      **Musical times and singing-class circular** ,1893
