Please note This is a companion version not the original book Sample Book Insights 1 There are not many great humor writers in the world It is one of the most difficult and challenging of all the literary crafts To write humor that is funny you must first find a good joke then re tell it in your own words 2 To write humor you must first understand what makes people laugh There are many theories as to why people laugh and they all provide some insight into what makes people laugh But writing humor requires no funny performer or engaging personality 3 The tools of the humor writer are not in a physical toolbox They re locked away in the subconscious mind of the user They re tools of knowledge The professional comedy writer knows how to write humor that the majority of people will find funny in a reliable and repeatable way 4 Comedy writing is a craft that can be learned and mastered It doesn t take decades of practice and it doesn t have to be isolating or frustrating The steps that take place in a split second are laid out in the form of a clear blueprint that anyone can learn and practice
