**Stranger in China** Colin McCullough,1972-01-01      China's Innovation Economy Jon-Arild Johannessen,2021-09-30

Two trends will have more influence than anything else on the world's future political and economic situation the development of artificial intelligence and the emergence of China as a competitor to the United States on the international stage This book is about the emerging innovation economy It uses systems theory and evolutionary economics as a theoretical point of departure and explains why the focal point of the geopolitical stage is moving away from the alliance between the United States and Europe and towards an alliance between China the 14 Regional Comprehensive Economic Partnership countries the countries along the new silk road and Europe The book argues that the globalization strategy of neoliberalism laid the foundation for the Chinese economic engine Whereas the old globalization was driven by cost differences generally and wage costs specifically the new globalization is driven by divergence in competence in general and technological competence in particular and China's primary goal is to develop artificial intelligence and intelligent robots Further the book posits that the interactions between the climate crisis and the new technology will change production distribution and the creation of profits both in China and more widely in the global innovation economy The book develops a structure to describe analyze and explain the Chinese innovation economy and contributes to the discussion regarding technological developments in China The book is written for readers who are oriented towards the new globalization that is emerging in the innovation economy and the factors driving China's economic growth      **Chinese Urbanism** Mark Jayne,2018-05-11 This book provides a definitive overview of contemporary developments in our understanding of urban life in China Multidisciplinary perspectives outline the most significant critical theoretical methodological and empirical developments in our appreciation of Chinese cities in the context of an increasingly globalized world Each chapter includes reviews and appraisals of past and current theoretical development and embarks on innovative theoretical directions relating to Marxist feminist post structural post colonial and more than representational thinking The book provides an in depth insight into urban change and considers in what ways theoretical engagement with Chinese cities contributes to our understanding of global urbanism Chapters explore how new critical perspectives on economic political social spatial emotional embodied and affective practices add value to our understanding of urban life in and beyond China Chinese Urbanism offers valuable insights which will be of interest to students and scholars alike working in geography urban studies Asian studies economics political studies and beyond      **Relations and Roles in China's Internationalism** Chih-yu Shih,2024-08-01 Pluriversalism within International Relations and the literature on Chinese international relations each embrace ideas of relation and difference While they similarly strive for recognition by Western academics they do not seriously engage with each other To the extent that either succeeds in winning recognition it ironically reproduces Western centrism and the binary of the Western versus the non Western In Relations and Roles in China's Internationalism author

Chih yu Shih demonstrates through a critical translation exercise that Confucian themes enable both the critique and realignment of liberal thought allowing all of us including the members of Confucianism and the neo liberal order to understand how we adapt to and coexist with each another In the end Confucianism not only informs the pluriversal necessity that all are bound to be related but also de nationalizes China s internationalism      *Structural Change and Evolution of China's Internet Society* Liu Shaojie,2022-11-28 This title investigates China s network society both its online cyber society and offline real world society by analyzing the trends and social foundations of society as network and the social challenges it poses as well as structural changes in social space and social interaction The first part of the book examines how network society in China forms and develops analyzing the challenges and structural changes it poses The author studies network power and uncertainties that lies in the supply flow and reception of a massive amount of information revealing how this influences the government s administrative power as well as governance measures to stabilize social cohesion The second part first discusses the social restructuring and characteristics of network social space in China Based on case studies of several momentous social events the spatial change characterized by an integration of absence and presence space and its influence on social interaction and experience is elucidated including active absence interaction mediated experience spatial representation and social identities of network aggregation The book will be a crucial reference for scholars and students studying sociology network sociology and contemporary Chinese society      *Strangers in the Family* Guo-Quan Seng,2023-11-15 In *Strangers in the Family* Guo Quan Seng provides a gendered history of settler Chinese community formation in Indonesia during the Dutch colonial period 1816 1942 At the heart of this story lies the creolization of patrilineal Confucian marital and familial norms to the colonial legal moral and sexual conditions of urban Java Departing from male centered narratives of Ooverseas Chinese communities *Strangers in the Family* tells the history of community formation from the perspective of women who were subordinate to and alienated from full Chinese selfhood From native concubines and mothers creole Chinese daughters and wives and matriarchs to the first generation of colonial educated feminists Seng showcases women s moral agency as they negotiated manipulated and debated men in positions of authority over their rights in marriage formation and dissolution In dialogue with critical studies of colonial Eurasian intimacies this book explores Asian centered inter ethnic patterns of intimate encounters It shows how contestations over women s place in marriage and in society were formative of a Chinese racial identity in colonial Indonesia      *The Routledge Handbook of Chinese Criminology* Liqun Cao,Ivan Y.
