## Strangers On Mortal Shores:

**Strangers on the Shore** Albert B. Randall, 2006 While the world's major religions differ in their beliefs they share common spiritual values Although Christians and Muslims disagree about the divinity of Jesus the New Testament and the Qur'an affirm a common set of spiritual virtues that are also found in Hinduism and Buddhism For Christians the fundamental spiritual virtues are most memorably stated in the Beatitudes that begin the Sermon on the Mount **Strangers on the Shore** explores the virtues in the Beatitudes as they are expressed in the New Testament the Muslim Qur'an the Hindu Bhagavad Gita and the writings and traditions of Buddhism

**The Human Shore** John R. Gillis, 2015-11-17 Since before recorded history people have congregated near water But as growing populations around the globe continue to flow toward the coasts on an unprecedented scale and climate change raises water levels our relationship to the sea has begun to take on new and potentially catastrophic dimensions The latest generation of coastal dwellers lives largely in ignorance of the history of those who came before them the natural environment and the need to live sustainably on the world's shores Humanity has forgotten how to live with the oceans In **The Human Shore** a magisterial account of 100 000 years of seaside civilization John R. Gillis recovers the coastal experience from its origins among the people who dwelled along the African shore to the bustle and glitz of today's megacities and beach resorts He takes readers from discussion of the possible coastal location of the Garden of Eden to the ancient communities that have existed along beaches bays and bayous since the beginning of human society to the crucial role played by coasts during the age of discovery and empire An account of the mass movement of whole populations to the coasts in the last half century brings the story of coastal life into the present Along the way Gillis addresses humankind's changing relationship to the sea from an environmental perspective laying out the history of the making and remaking of coastal landscapes the creation of ports the draining of wetlands the introduction and extinction of marine animals and the invention of the beach while giving us a global understanding of our relationship to the water Learned and deeply personal **The Human Shore** is more than a history it is the story of a space that has been central to the attitudes plans and existence of those who live and dream at land's end
