students digital writing Beginning with a digital writing sample each teacher offers an analysis of a student s work and a reflection on how collaborative assessment affected his or her teaching Because the authors include teachers from kindergarten to college this book provides opportunities for vertical discussions of digital writing development as well as grade level conversations about high quality digital writing The collection also includes an introduction and conclusion written by Hicks that provides context for the inquiry group s work and recommendations for assessment of digital writing

Book Features An adaptation of the Collaborative Assessment Conference protocol to help professional learning communities examine students digital work Detailed descriptions of students digital writing including the assessment process and implications for instruction Links to the samples of student digital writing available online for further review and to be used as digital mentor texts Building on his foundational work in helping us to embrace digital writing in the classroom Hicks and his collaborators help us take the next step to becoming teachers who practice authentic assessment that supports students to learn through digital writing This is the book and the thinking that advances our field Sara Kajder Clinical Assistant Professor Department of Language and Literacy Education University of Georgia

Professional Learning Conversations
Lorna M. Earl, Helen Timperley, 2008-02-29 This the first book in the series Professional Learning and Development in Schools and Higher Education is edited by two experienced committed and skilled educationists from different parts of the world but with converging values and viewpoints The result is a rich m lange of authors from the USA Australia South Africa Canada and New Zealand all of whom focus on the use of evidence informed decision making in schools and classrooms This focus makes for an unusual collection which acts as an antidote to change agendas which are entirely results driven The book provides evidence from a variety of countries of how s tem leaders teachers in schools and higher education must now manage as part of their endeavours to provide the best possible learning and achievement opportu ties for all students What makes this book unique is its engagement with the rea ties of the challenge of evidence informed conversations which all too quickly become activity traps as teachers are steered away from evidence towards ado ing short term pragmatic or ideological solutions which suit the policy agendas of reformists from outside schools and more often than not fail to result in real changes in teaching and learning
