## **Specification And Analysis Of Concurrent Systems:**

*Specification and Analysis of Concurrent Systems* Ryszard Janicki, Peter E. Lauer, 2012-12-06 Concurrent systems abound in human experience but their fully adequate conceptualization as yet eludes our most able thinkers The COSY ConcurrentSystem notation and theory was developed in the last decade as one of a number of mathematical approaches for conceptualizing and analyzing concurrent and reactive systems The COSY approach extends the conventional notions of grammar and automaton from formal language and automata theory to collections of synchronized grammars and automata permitting system specification and analysis of true concurrency without reduction to non determinism COSY theory is developed to a great level of detail and constitutes the first uniform and self contained presentation of all results about COSY published in the past as well as including many new results COSY theory is used to analyze a sufficient number of typical problems involving concurrency synchronization and scheduling to allow the reader to apply the techniques presented to similar problems The COSY model is also related to many alternative models of concurrency particularly Petri Nets Communicating Sequential Processes and the Calculus of Communicating Systems

series and contains the papers presented at the International Workshop on Structures in Concurrency Theory STRICT held in Berlin from 11-13 May 1995. Concurrency theory deals with formal aspects of concurrent systems. It uses partly competing and partly complementary formalisms and structures. This workshop was jointly organised by the Humboldt University zu Berlin and the ESPRIT Basic Research Working Group CALIBAN. CALIBAN and its predecessor DEMON are ESPRIT Basic Research projects with the aim of developing design methodologies based on causal models such as Petri nets. The workshop marked the third year of the project and surveyed the results of CALIBAN and DEMON since 1989. *Formal Description Techniques VII* D. Hogrefe, S. Leue, 1995-02-28.
