The under jaw extends outwards on both sides Their mouths are rather large their teeth close set and of the finest enamel their lips a little inverted Their necks are regularly formed they have large bellies and narrow chests so that their bodies are generally larger below than above Their feet and hands are well proportioned Except the tuft on the head which we have already remarked they have no hair on any part of the body Books which deal greatly in the marvelous convert this into an extraordinary phenomenon but the fact is that from a superstition common to all savages they pluck it out and as they begin at an early age and use the most perservering means for its extirpation nothing is left but a soft down **WAKEFIELDS HIST OF THE BLACK H** John Allen 1797-1873 Wakefield,2016-08-28 *The Black Hawk War* Frank Everett Stevens,1903
