Seat, 2023-08-18 In step with the MeToo movement and third wave feminism women s roles provoke lively debate in today s evangelical sphere The Southern Baptist Convention SBC has a complicated past regarding this issue and determining what exactly women s roles in home church and society should be or even what these roles should be called has been a contentious subject In A Marginal Majority Women Gender and a Reimagining of Southern Baptists editors Elizabeth H Flowers and Karen K Seat and eight other contributors examine the SBC s complex history regarding women and how that history reshapes our understanding of the denomination and its contemporary debates This comprehensive volume starts with women as SBC fundraisers moves to the ways they served Southern Baptist missions and considers their struggles to find a place at Southern Baptist seminaries as well as their launching of teaching or women s ministries Along the way it introduces new personalities offers fresh considerations of familiar figures and examines the power dynamics of race and class in a denomination that dominated the South and grew into a national behemoth Additionally the essay collection provides insights into why the SBC has often

politically aligned with the right Not only did the denomination become increasingly oriented toward authoritarianism as it clamped down on evangelical feminism but as several contributors reveal even as Southern Baptist women sought agency they often took it from others Read together the chapters strike a somber tone challenging any triumphal historiography of the past By providing a history of contentious issues from the nineteenth century to the present day *A Marginal Majority* provides invaluable context for the recurrent struggles women have faced within the United States largest Protestant denomination Moreover it points to new directions in the study of American denominational life and culture

**Child Marriage, Rights and Choice** Hoko Horii, 2021-11-18 This book addresses the issue of agency in relation to child marriage In international campaigns against child marriage there is a puzzle of agency While international human rights institutions celebrate girls exercise of their agency not to marry they do not recognize their agency to marry Child marriage usually defined as any formal marriage or informal union where one or both of the parties are under 18 years of age is normally considered as forced which is to say that it is assumed that are not capable of consenting to marriage This book however re examines this assumption through a detailed socio legal examination of child marriage in Indonesia Eliciting the multiple competing frameworks according to which child marriage takes place the book considers the complex reasons why children marry Structural explanations such as lack of opportunities and oppressive social structures are important but not exhaustive explanations Exploring the subjective reasons by listening to children s perspectives their stories show that many of them decide to marry for love desire to belong to the community and for new opportunities and hopes The book then demonstrates how the child marriage framework and indeed the human rights framework in general is constructed on too narrow a vision of human agency One that cannot but fail to respect and promote the agency of all regardless of gender race religion and age This book will be of interest to scholars students and practitioners in the areas of children s rights legal anthropology and socio legal studies
