Chapters 12 14 and 15 multivariate analysis Chapter 18 and the matrix algebra appropriate to the level of presentation of
this material Chapter 13 I have noted in the preface other additions in this third edition The added material should enhance
the value of the book as a textbook and a reference Given these additions however alternative approaches in using the
current edition as a textbook may merit consideration It may help to note that Chapters 16 and 17 analysis of covariance
trend analysis do not depend on the material in Chapters 12 through 15 although the student should know something about
simple linear regression to be able to understand fully the material in Chapters 16 and 17 In any event the instructor who
wants to teach only the material in the first two editions can do so by dropping the added chapters 12 through 15 and 18

Building a Space Faring Civilization Advancing the Renaissance of Science Medicine and Human Performance in Civilian
Spaceflight explores an expanding unique new trajectory for humankind the settlement of space by civilians For the first time
in history average humans can contemplate journeys to Earth orbit the Moon and Mars with the idea of space settlement as a
plausible reality As the numbers of spacefaring civilians grow medical personnel will be asked to meet their complex needs
through an ever expanding discipline space medicine But this will require a rapidly advancing science to address what some
are calling the next great age in space This book gathers some of the most accomplished thought leaders in the field of
human spaceflight today Collectively they helped build the international space station ISS develop the field of orbital
medicine guide the development of commercial orbital platforms plan missions to the Moon and Mars and forge the
innovation necessary for the commercial spaceflight industry to thrive today The result is an exceptional source of wisdom
experience and insight surrounding the current biomedical technical industrial legal and social implications of what is
emerging as a true renaissance period in human history Describes the lessons learned from past explorers from the
Renaissance to the present and how they can guide space exploration today Characterizes the risks encountered in the
exploration and settlement of different domains of space Surveys the types of medical incidents civilian space travelers are
