Jensen, Giovanni Lamura, 2014 Active ageing has become a key phrase in the discourses about healthy aging processes and one important way that it has been achieved in Europe is through the engagement of older people in volunteer work Active Ageing offers a much needed compendium of research on volunteerism among seniors Ranging across eight European countries the contributors highlight how different levels in the structure of volunteering from local to national interact and how these interactions either facilitate or hinder seniors inclusion in voluntary work They go on to offer policy suggestions for a more integrated strategy that can better support this unique group of volunteer workers Ageing, Ageism and the Law Israel (Issi) Doron, Nena Georgantzi, 2018-11-30 Europe is ageing However in many European countries and in almost all fields of life older persons experience discrimination social exclusion and negative stereotypes that portray them as different or a burden to society This pivotal book is the first of its kind providing a rich and diverse analysis of the inter relationships between ageing ageism and law within Europe *Active Ageing in Europe* Dragana Avramov, Ronald C. Schoenmaeckers, Miroslava Maskova, Council of Europe, 2003-01-01 This publication is the second volume of a report which discusses the changing age structure in European countries characterised by the increase in the number of elderly persons and the decrease in the young and working populations It focuses on the demographic characteristics of people aged 80 years and over the fastest growing age group within the population including existing living arrangements health issues gender and socio economic characteristics The Making of Ageing Policy Rune Ervik, Tord Skogedal Lindén, 2013-01-01 This innovative book provides insightful analyses and critique of policy ideas and practices regarding the challenges and opportunities facing ageing European societies Through pertinent case study examples it elucidates the ideological and institutional factors that underlie policy responses in different European societies It demonstrates the pivotal role of ideas and of international organisations in shaping the policy and practice landscape and driving through key policy reforms in Europe This edited book provides an invaluable resource for policy makers researchers and scholars interested in ageing policy and the political process Sara Arber University of Surrey UK Demographic changes transform societies and challenge existing institutional solutions and policies The need for policies addressing these challenges has increasingly been put on

the agenda The Making of Ageing Policy analyzes these innovative policy ideas and practices at both the international and the national level The book provides insights into the value basis and justifications of ageing policies the potential for conflict and how policy ideas are embedded in institutional defense and advocacy for institutional change and reform In terms of policy ideas the economically focused productive ageing dominates but the book finds instances where the broader active ageing approach has gained a hold in policymaking Ageing policy reforms within pensions and labour market policy include measures to make people extend their working life In long term care reforms abound and implies changes in the responsibility of financing and provision but the patterns across countries differ substantially The authors provide normative analysis of ageing policy ideas divulge political conflicts and consensus on ageing policy and contribute by describing and analyzing the changing institutional landscape of ageing politics and policies throughout Europe It will prove insightful for academics and researchers in the field but it will also appeal to practitioners who are increasingly dealing with demographic challenges across a wide number of policy sectors in their daily affairs
