A New Paradigm in Marketing - The Service Dominant Logic: Academia's Reactions to the Theory of Vargo and Lusch Christina Weißenfels,2014-04 For virtually all of the 20th century the paradigm in marketing was founded on early economic thoughts making goods and exchanges the focal point of economic research and practice In the 1980s and 1990s scholars called for a paradigm shift but did not deliver clear directives on how to move forward It was not before 2004 when Stephen L Vargo and Robert F Lusch published their award winning article Evolving to a New Dominant Logic for Marketing in the Journal of Marketing dealing with a potentially new paradigm for marketing The publication has caused a lot of discussions crowned by a collection of essays from more than 50 scholars in 2006 This book aims at looking into the reactions and discussions regarding the proposed service dominant logic in more detail So far no comprehensive overview of the existing literature has yet been made This book will introduce the basic ideas of the service dominant logic followed by a detailed state of literature The last part of the book will examine whether the concepts of a service dominant logic display similarities with concepts of B2B marketing and whether they could successfully be adopted in B2B markets

Creating a Service Culture in Higher Education Administration Mario C. Martinez,Brandy Smith,Katie Humphreys,2023-07-03 Service delivery is part and parcel of every higher education professional s job both to improve service to students and to each other as internal customers Until now higher education professionals have had to rely for their professional development on books and training designed for the business sector This book is the first to specifically address the needs of higher education professionals across a wide range of administrative functions within college and university environments It is designed for administrative staff and management ranging from professionals working in centralized functions such as student affairs and enrollment management to those working as advisors or in career centers whether in community colleges four year institutions or for profit institutions Each chapter applies customer service principles to scenarios that are relevant to higher education The book begins by engaging the reader to define service and identify the external and internal customers who are recipients of that service It then maps customer interactions into a series of steps and offers departments and individuals a tool to maximize the customer experience Additional chapters address customer expectations creating a service culture on your campus and managerial influences on staff service delivery
