2014 Regional Convention Not For Kids:

Combating Child Labour A Review of Policies OECD,2003-09-07 This important book seeks to answer fundamental questions about child labour s economic causes the working conditions children endure implications of their labour for the economic outlook of the countries concerned and actions and policies to combat it *Report on the ILO/SIDA Regional Seminar on Labour Inspection in Relation to the Employment of Women and Protection of Children (Singapore, 28 November-13 December 1972)* International Labour Office. Expanded Programme of Technical Assistance,1973 *SDGs in the Americas and Caribbean Region* Walter Leal Filho, Noé Aguilar-Rivera, Bruno Borsari, Paulo R. B. de Brito, Baltazar Andrade Guerra, 2023-08-31 This volume provides an overview of the ways sustainable development issues as a whole and the SDGs in particular are perceived and practiced in a variety of countries in the Latin America and Caribbean region. It also discusses the extent to which its many socio economic problems hinder progresses towards the pursuit of a sustainable future and documents successful experiences from across the region. This book is part of the 100 papers to accelerate the implementation of the UN Sustainable Development Goals initiative *Retired at Eighteen: Political Economy of Child Labour in the Textiles and Allied Industries in India* Abhijit Mukhopadhyay, Shoba Suri, Mihir Sharma, Oommen C. Kurian, 2020-11-05 This report analyses the use of child labour 1 in the textiles and allied industries in India and the drivers that lead to its prevalence. India home to one fifth of the world s children has the highest rates of child labour an estimated 33 million children under the age of 18 are engaged in work in various sectors across the country from domestic service and agriculture to textiles and mining. The textiles and allied industries are the second largest employers in India after agriculture with 40 million direct and 60 million indirect employees. As a traditionally labour intensive industry where flexible and low cost labour has driven growth and pushed India s global competitiveness in the sector the textiles sector is enabled by the massive use of child labour. The continuing practice of child labour has the potential to jeopardise India s push for incentivising foreign investments into the sector and integrating into global supply chains. This report seeks to address key facets of the issue and provide holistic policy solutions. It is divided into three sections. Chapter 1 reviews key literature about child labour in India particularly its causes and impacts. The second chapter provides an analysis of child labour in India within the garment and textile industry using data from 88 sub state regions a collection of districts covered by the National Sample Survey NSS of 2011 2012. The final chapter tests the hypothesis that labour costs are the main drivers of global competitiveness in the textiles and allied industries. This is done through an analysis of NSSO unit level data from the Enterprises Survey 2015 16 of ten sub state regions a *The United Nations Convention on the Rights of the Child* Ton Liefaard, Julia Sloth-Nielsen, 2016-11-01 In 2014 the world s most widely ratified human rights treaty one specifically for children reached the milestone of its twenty fifth anniversary. The UN Convention on the Rights of the Child was adopted after the fall of the Berlin Wall and in the time since then it has entered a new century reshaping laws policies institutions

and practices across the globe along with fundamental conceptions of who children are their rights and entitlements and society's duties and obligations to them. Yet despite its rapid entry into force worldwide there are concerns that the Convention remains a high level paper treaty without the traction on the ground needed to address ever continuing violations of children's rights. This book based on papers from the conference 25 Years CRC held by the Department of Child Law at Leiden University draws together a rich collection of research and insight by academics, practitioners, NGOs and other specialists to reflect on the lessons of the past 25 years, take stock of how international rights find their way into children's lives at the local level and explore the frontiers of children's rights for the 25 years ahead.

Child Marriage, Rights and Choice Hoko Horii, 2021-11-18 This book addresses the issue of agency in relation to child marriage. In international campaigns against child marriage there is a puzzle of agency. While international human rights institutions celebrate girls' exercise of their agency not to marry, they do not recognize their agency to marry. Child marriage, usually defined as any formal marriage or informal union where one or both of the parties are under 18 years of age, is normally considered as forced, which is to say that it is assumed that they are not capable of consenting to marriage. This book, however, re-examines this assumption through a detailed socio-legal examination of child marriage in Indonesia. Eliciting the multiple competing frameworks according to which child marriage takes place, the book considers the complex reasons why children marry. Structural explanations such as lack of opportunities and oppressive social structures are important but not exhaustive explanations. Exploring the subjective reasons by listening to children's perspectives, their stories show that many of them decide to marry for love, desire to belong to the community and for new opportunities and hopes. The book then demonstrates how the child marriage framework and indeed the human rights framework in general is constructed on too narrow a vision of human agency. One that cannot but fail to respect and promote the agency of all, regardless of gender, race, religion and age. This book will be of interest to scholars, students and practitioners in the areas of children's rights, legal anthropology and socio-legal studies.
