Weaponizing Maps Joe Bryan, Denis Wood, 2015-03-05 Maps play an indispensable role in indigenous peoples efforts to secure land rights in the Americas and beyond. Yet indigenous peoples did not invent participatory mapping techniques on their own; they appropriated them from techniques developed for colonial rule and counterinsurgency campaigns and refined by anthropologists and geographers. Through a series of historical and contemporary examples from Nicaragua, Canada and Mexico, this book explores the tension between military applications of participatory mapping and its use for political mobilization and advocacy. The authors analyze the emergence of indigenous territories as spaces defined by a collective way of life and as a particular kind of battleground.

An

Atlas of the Himalayas by a 19th Century Tibetan Lama Diana Lange, 2020-06-08 Diana Lange's patient investigations have in this wonderful piece of detective work solved the mysteries of six extraordinary panoramic maps of routes across Tibet and the Himalayas, clearly hand drawn in the late 1850s by a local artist known as the British Library's Wise Collection. Diana Lange now reveals not only the previously unknown identity of the Scottish colonial official who commissioned the maps from a Tibetan Buddhist lama but also the story of how the Wise Collection came to be in the British Library. The result is both a spectacular illustrated ethnographic atlas and a unique compendium of knowledge concerning the mid 19th century Tibetan world as well as a remarkable account of an academic journey of discovery. It will entertain and inform anyone with an interest in this fascinating region. This large format book is lavishly illustrated in colour and includes four separate large foldout maps.

Transforming Agriculture in South Asia Ashok K. Mishra, Anjani Kumar, Pramod K. Joshi, 2020-12-30 Debates about public expenditure in the agricultural sector have reopened in many developing and emerging economies because of high budget deficits and changes in public opinion. As a result, agricultural policy in many of these countries is beginning to take a more market oriented approach to agrarian problems, most notably through the introduction of contract farming. This book explores the policy issues around contract farming and its transformative potential and addresses the lack of empirical research on this topic by focusing on South Asia, principally India, Bangladesh and Nepal. The book first addresses the effects of contract farming, vertical coordination on productivity, food security, indicators, yield, consumption, expenditures, prices, employment and input usage. Then it draws lessons from the South Asian

case studies on the impact of institutional changes like contract farming on income and food security of smallholder households The core of the book includes case study chapters on several commodities that are produced under contract farming including vegetables and fisheries in Bangladesh low value crops in Nepal and coffee in India Other chapters also explore contracts storage input usage and technical efficiency in these cases This book serves as an essential guide to academics researchers students legislative liaisons and think tank groups interested in agrarian issues agricultural economics and agricultural policy in emerging economies and particularly in South Asia **Literary Market Place** ,2003 The directory of the American book publishing industry with industry yellow pages **The Gardeners' Chronicle and Agricultural Gazette for 1859** Anonymous,2023-03-03 Reprint of the original first published in 1859 The publishing house Anatiposi publishes historical books as reprints Due to their age these books may have missing pages or inferior quality Our aim is to preserve these books and make them available to the public so that they do not get lost **Journal of Education and School World** ,1916 **Literary Market Place** Information Today, Inc,2004-11 Literary Market Place 2005 is the ultimate insider's guide to the U S book publishing industry covering every conceivable aspect of the business Two easy to use volumes provide 54 sections organizing everyone and everything in the business from publishers agents and ad agencies to associations distributors and events Over 14 000 listings in all featuring names addresses and numbers key personnel activities specialties and other relevant data e mail addresses and Web sites and more Some 24 000 decision makers throughout the industry listed in a separate Personnel Yellow Pages section in each volume Thousands of services and suppliers equipped to meet every publishing need or requirement LMP 2005 leaves no stone unturned in connecting you with the publishing firm service or product you or your patrons need Completely revised and updated LMP 2005 helps publishers locate other publishers freelancers agents printers wholesalers and manufacturers suppliers find names and numbers of potential publishing customers job seekers locate contact names addresses and phone numbers throughout the industry writers locate publishers for their works librarians provide patrons with the reference source they need to navigate the publishing industry When it comes to books you can reach the people who publish package review represent edit translate typeset illustrate design print bind promote publicize ship and distribute all at one world famous business address Literary Market Place 2005 **Walford's Guide to Reference Material: Science and technology** Albert John Walford,1993 Cette bibliographie commentée touche tous les domaines du savoir humain soit de l'Art à la Zoologie elle signale les ouvrages les plus importants soit des bibliographies des index des encyclopédies des dictionnaires des guides des revues etc dont le support d'information est soit du papier soit un cd rom soit une base de données en ligne directe soit un microforme etc L'objectif du guide Walford est de devenir La source d'information sur tout type de référence nonobstant le support technique
