## 2014 Religious Studies 2 Question Paper:

*Religious Education in a Global-Local World* Jenny Berglund, Yafa Shanneik, Brian Bocking, 2016-07-15 This book examines Religious Education RE in over ten countries including Australia Indonesia Mali Russia UK Ireland USA and Canada Investigating RE from a global and multi interdisciplinary perspective it presents research on the diverse past present and possible future forms of RE In doing so it enhances public and professional understanding of the complex issues and debates surrounding RE in the wider world The volume emphasizes a student centred approach viewing any kind of RE or its absence as a formative lived experience for pupils It stresses a bottom up sociological and ethnographic anthropological research based approach to the study of RE rather than the top down approaches which often start from prescriptive legal ideological or religious standpoints The twelve chapters in this volume regard RE as an entity that has multiple and contested meanings and interpretations that are constantly negotiated For some RE means religious nurturing either tailored to parental views or meant to inculcate a uniform religiosity For others RE means learning about the many religious and non religious world views and secular ethics that exist not promoting one religion or another Some seek to avoid the ambiguous term religious education replacing it with terms such as education about religions and beliefs or the religious dimension of intercultural education
