## **Talking With Artists Volume Two:**

*Selected Writings of Richard McKeon, Volume Two* Richard P. McKeon, 1998 Richard McKeon was a philosopher of extraordinary creativity who brought profoundly original ideas to bear on more standard ways of thinking and learning. A classicist medievalist and revolutionary intellectual he fashioned an approach to philosophy as a plural conversation among varied traditions of thought epochs and civilizations. This second volume of McKeon's selected works demonstrates his approach to inquiry and practice in culture education and the arts. Together the writings in this book show how McKeon reinvented the ancient arts of rhetoric grammar logic and dialectic for the new circumstances of a global culture. In essays on creation and criticism for instance rhetoric is distinguished from grammar and shown to be the master art of invention judgment and pluralistic interpretation. Writings on themes of culture meanwhile explore the self invention of mankind as justification for the arts the development of the humanities and the organization of the sciences. In the closing essays on education and philosophy McKeon considers the implications of his ideas for the future of the liberal arts and higher learning.

Drawing on corporate records and interviews Balio follows United Artists through its merger with Transamerica in the 1960s and its sale to MGM after the financial debacle of the film Heaven's Gate. With its attention to the role of film as both an art form and an economic institution United Artists The Company That Changed the Film Industry is an indispensable study of one company's fortunes from the 1950s to the 1980s and a clear eyed analysis of the film industry as a whole.
