*The Lives and Times of the Great Composers* Michael Steen, 2011-07-01 A glorious plum pudding of a book to be consulted with pleasure and profit over and over again Sir Jeremy Isaacs Michael Steen s *Great Composers* was originally published in 2003 A lifetime s work and almost 1000 pages long it has since become the reference point and key read on the biographical backgrounds to classical music s biggest names Authoritative and hugely detailed but nonetheless a joy to read

this new edition will expand its readership further and capitalise on a newfound popular interest in classical music Steen's book helps you explore the story of Bach the respectable burgher much of whose vast output was composed amidst petty turf disputes in Lutheran Leipzig or the ugly argumentative Beethoven in French occupied Vienna obsessed by his laundry or Mozart the over exploited infant prodigy whose untimely death was shrouded in rumour Read about Verdi who composed against the background of the Italian Risorgimento or about the family life of the Wagners and Brahms who rose from the slums of Hamburg to become a devotee of beer and coffee in fin de siècle Vienna a cultural capital bent on destroying Mahler and much much more

*Primary Huh: Curriculum conversations with subject leaders in primary schools* John Tomsett, Mary Myatt, 2022-04-25 There's plenty to do when planning the curriculum in primary schools If it feels daunting then one of the most helpful things is to talk to other people about how they have developed the curriculum for their particular subject or key stage This is what John Tomsett and Mary Myatt have done After the secondary Huh Curriculum conversations between subject and senior leaders was published they were flooded with requests to produce a primary version They enlisted the help of renowned primary specialists Rachel Higginson Lekha Sharma and Emma Turner to have conversations with primary teachers and key stage co ordinators who are doing great curriculum development work Each chapter provides insights into the importance of individual subjects and the unique contribution each makes to pupils cognitive and personal development The subject chapters discuss the steps colleagues take to ensure that there is a coherent thread across the year groups as the discrete subjects deliver collectively the primary curriculum These conversations show how the craft of creating a rich challenging curriculum for every subject is not a quick fix This is a nuanced piece of work and there are many ways of approaching it Each chapter also contains links to subject associations and helpful resources Primary Huh has been written for subject leaders and key stage co ordinators it has also been written for senior leaders as they prepare to have supportive conversations with their colleagues who are responsible for curriculum development Primary Huh is offered as a prompt rather than the last word Informed debate is as they say the fuel of curriculum development And why have John and Mary called it Huh Well John discovered that Huh is the Egyptian god of endlessness creativity fertility and regeneration and they thought that was a pretty good metaphor for their work on the curriculum
