**Kirchner and the Berlin Street** Deborah Wye,Ernst Ludwig Kirchner,Museum of Modern Art (New York, N.Y.),2008

Ernst Ludwig Kirchner's remarkable series of paintings known as the Berlin Street Scenes is a highpoint of the artist's work and a milestone of German Expressionism widely seen as a metaphor for modernity itself through their depiction of life in a major metropolis Kirchner moved from Dresden to Berlin in 1911 and it was in this teeming city immersed in its vitality decadence and underlying sense of danger posed by the imminent World War I that he created the Street Scenes in a sustained burst of creative energy and ambition between 1913 and 1915 As the most extensive consideration of these paintings in English this richly illustrated volume examines the creative process undertaken by the artist as he explores his theme through various mediums and presents the major body of related charcoal drawings pen and ink studies pastels etchings woodcuts and lithographs he created in addition to the paintings The volume also investigates the significance of the streetwalker as a primary motif and provides insight on the series in the context of Kirchner's wider oeuvre

Quemin,2024-10-17 This book presents the first detailed study of the place of contemporary art galleries and gallerists especially within the art markets of Europe and the United States Based on the author's field research carried out for over a decade and combining ethnographic material with quantitative data the book reveals the major role galleries play in the creation of art value Despite being pillars of the art market there has been very little in depth research on galleries especially when compared with the analysis of artists critics and dealers Written by a sociologist who has spent a decade as an art critic the book builds on work conducted by art historian and sociologist Raymonde Moulin from the 1960s to the 1990s Drawing on ethnographic observations and interviews with those working in the field today it provides a thorough and up to date analysis of what contemporary art galleries really are the spaces they occupy both physically and online their position within gallery districts their relation to art fairs and biennials and how friendship with clients is built and trends within the business in turn illuminating the hierarchized structure of the sector The book concludes by addressing a significant gap in data on the art market by providing a sociological ranking of international contemporary art galleries Offering a detailed analysis to a topic that has never been fully studied The Social World of Galleries is essential reading for scholars and students of art sociology art history and art business as well as gallerists collectors or art lovers and artists themselves
