The Battle For Moskow 1941 42

Rolf-Dieter Müller, Gerd R. Ueberschär

The Battle For Moskow 1941 42:

Battle For Moscow Albert Seaton,1993-10-21 A German capture of Moscow in 1941 would have knocked Russia out of the war a riveting narrative of this crucial battle by a British officer with a deep knowledge of the East European sources

The Battle of Moscow 1941-1942 Soviet General Staff,2015-06-19 The Battle of Moscow 1941 1942 The Red Army s Defensive Operations and Counteroffensive Along the Moscow Strategic Direction is a detailed examination of one of the major turning points of World War II as seen from the Soviet side The Battle of Moscow marked the climax of Hitler s Operation Barbarossa which sought to destroy the Soviet Union in a single campaign and ensure German hegemony in Europe The failure to do so condemned Germany to a prolonged war it could not win This work originally appeared in 1943 under the title Razgrom Nemetskikh Voisk pod Moskvoy The Rout of the German Forces Around Moscow The work was produced by the Red Army General Staff s military historical section which was charged with collecting and analyzing the war s experience and disseminating it to the army s higher echelons This was a collective effort featuring many different contributors with Marshal Boris Mikhailovich Shaposhnikov former chief of the Red Army General Staff and then head of the General Staff Academy serving as general editor The book is divided into three parts each dealing with a specific phase of the battle The first traces the Western Front s defensive operations along the Moscow direction during Army Group Center s final push toward the capital in November December 1941 The study pays particular attention to the Red Army s resistance to the Germans attempts to outflank Moscow from the north Equally important were the defensive operations to the south of Moscow where the Germans sought to push forward their other encircling flank The second part deals with the first phase of the Red Army s counteroffensive which was aimed at pushing back the German pincers and removing the immediate threat to Moscow Here the Soviets were able to throw the Germans back and flatten both salients particularly in the south where they were able to make deep inroads into the enemy front to the west and northwest The final section examines the further development of the counteroffensive until the end of January 1942 This section highlights the Soviet advance all along the front and their determined but unsuccessful attempts to cut off the Germans Rzhev Vyazma salient It is from this point that the front essentially stabilized after which events shifted to the south This new translation into English makes available to a wider readership this valuable study

The Greatest Battle Andrew Nagorski,2008 A new and beautifully researched account of what had been a poorly understood part of the war New York Review of Books A fine diplomatic and military history but its real triumph is in the voices of the survivors of the Battle of Moscow Washington Post The Battle for Moscow which took place from September 1941 to April 1942 was the biggest battle of World War II indeed the biggest battle of all time Seven million troops were involved The combined losses of both sides amounted to 2.5 million men 2 million on the Russian side Even Stalingrad immortalised in Antony Beevor s classic work involved half as many troops and less than half as many losses But most of all this battle turned the course of the whole war Hitler had declared war on the Soviet Union and

hoped for a swift victory Had Moscow fallen Hitler might have won the war but in the bitter winter the Soviet army held the Germans back But Stalin committed huge strategic blunders initially refusing to arm his troops after Hitler sent his troops east without winter clothing and his reign of terror caused mass looting in Moscow and the flight of half its citizens As a result the Soviets suppressed the full story of the battle and only now have the secret archives been declassified for Andrew Nagorski to tell the full story Anyone gripped and astounded by Stalingrad will find this an amazing account of privation and attrition on an unimaginable scale Andrew Nagorski is a senior editor at Newsweek International He served two tours as Moscow bureau chief and won awards for his foreign reporting He lives in New York *The Battle for Moscow, 1941-1942* Albert Seaton, 1971 **The Battle of Moscow 1941-1942** Richard Harrison, Soviet Staff, 2025-11-30 The Battle of Moscow 1941-1942 The Red Army's Defensive Operations and Counteroffensive Along the Moscow Strategic Direction is a detailed examination of one of the major turning points of World War II as seen from the Soviet side The Battle of Moscow marked the climax of Hitler's Operation Barbarossa which sought to destroy the Soviet Union in a single campaign and ensure German hegemony in Europe The failure to do so condemned Germany to a prolonged war it could not win This work originally appeared in 1943 under the title Razгром Неметских Вои́ск под Москвой The Rout of the German Forces Around Moscow The work was produced by the Red Army General Staff's military historical section which was charged with collecting and analyzing the war's experience and disseminating it to the army's higher echelons This was a collective effort featuring many different contributors with Marshal Boris Mikhailovich Shaposhnikov former chief of the Red Army General Staff and then head of the General Staff Academy serving as general editor The book is divided into three parts each dealing with a specific phase of the battle The first traces the Western Front's defensive operations along the Moscow direction during Army Group Center's final push toward the capital in November-December 1941 The study pays particular attention to the Red Army's resistance to the Germans' attempts to outflank Moscow from the north Equally important were the defensive operations to the south of Moscow where the Germans sought to push forward their other encircling flank The second part deals with the first phase of the Red Army's counteroffensive which was aimed at pushing back the German pincers and removing the immediate threat to Moscow Here the Soviets were able to throw the Germans back and flatten both salients particularly in the south where they were able to make deep inroads into the enemy front to the west and northwest The final section examines the further development of the counteroffensive until the end of January 1942 This section highlights the Soviet advance all along the front and their determined but unsuccessful attempts to cut off the Germans' Rzhev-Vyazma salient It is from this point that the front essentially stabilized after which events shifted to the south This new translation into English makes available to a wider readership this valuable study **The Battle for Moscow, 1941-42** Werner Haupt, 1973 [Air Battle for Moscow 1941-1942](#) Dmitry Degtev, Dmitry Zubov, 2021-10-31 This is the story of the aerial element of the Battle for Moscow between 1941 and 1942 known to the Germans as Operation Typhoon In October 1941 Operation Typhoon and the

battle for Moscow began According to Hitler s plan it was to be the last offensive after which nothing could stop Germany from conquering Britain and the rest of Europe but first he had to overcome the Soviets and especially their air force Air Battle for Moscow is the first detailed description of one of the most vital yet little known air battles of the Second World War The battle for Moscow opened with the flights of long range reconnaissance aircraft which photographed Moscow and the Kremlin Then on 22 July 1941 Operation Clara Zetkin the Luftwaffe s aerial assault on Moscow began But the Luftwaffe was opposed by the Stalin s Falcons the elite 6th Air Defence Corps which defended the Soviet capital with a determination which saw bitter duels to the death and horrendous casualties on both sides The book presents new facts about this dramatic battle and describes in detail the actions of the aircrew on both sides Yet this is not just the story or the air war The authors also describe the lives of people during the war of suppressed anti Soviet opposition in Moscow and of the bloodthirsty and inhuman actions of the Stalin regime The book also tells of the fate of German pilots caught in Russian captivity and the adventures of those who were able to survive and escape from the Russian executioners Many myths concerning the battle are also challenged such as the often stated belief that Moscow s anti aircraft defenses were the most powerful in the world and that it was the Soviets who were the finest pilots In this comprehensive account details of losses biographical outlines of the key individuals analyses of the different aircraft and a full chronology of the battle are presented as well as numerous exclusive photos documents and drawings But it is the stories of those who fought in the Battle for Moscow that undeniably have the greatest impact The harrowing tales of death and survival in conditions that are almost beyond description demonstrate just how important this conflict was to both Russia and the Third Reich and ultimately to the outcome of the Second World War *The Greatest Battle* Andrew Nagorski,2008 *Hitler's War in the East, 1941-1945* Rolf-Dieter Müller,Gerd R. Ueberschär,1997 There is still a widespread assumption that the Second World War was won in the West when in fact the tide was first turned on the Eastern front This book written by two internationally known experts on the subject argues that Hitler s Ostkrieg was the central event of the global conflict between the Allies and the Axis powers However this is much more than a traditional military political history it deals with Nazi crimes and economic exploitation with the psychological war No less significantly this volume provides a guide to the extensive literature on the war in the East including largely unknown Soviet writing on the subject Indispensable for military historians but also for all scholars who approach this crucial period in world history from a socio economic or cultural perspective **Battle of Moscow, 1941-1942** Hans von Greiffenberg,United States.
