Beano School File Kingfisher Publications, plc,1999-07 **Global Citizenship Education** ,2008-01-01 The essays in this edited collection argue that global citizenship education realistically must be set against the imperfections of our contemporary political realities As a form of education it must actively engage in a critically informed way with a set of complex inherited historical issues that emerge out of a colonial past and the savage globalization which often perpetuates unequal power relations or cause new inequalities The essays in the book explore these issues and the emergent world ideologies of globalism as well as present territorial conflicts ethnic tribal and nationalist rivalries problems of increasing international migration and asylum growing regional imbalances and increasing world inequalities Contributors to this collection each on their own way argues that global citizenship education needs to project new values to reality test and debate the language concepts and theories of global citizenship and the proto world institutions that seek to give expression to nascent aspirations for international forms of social justice and citizen participation in world government Many of the contributors argue that global citizenship education offers the prospect of extending the liberal ideologies of human rights and multiculturalism and of developing a better understanding of forms of post colonialism One thing is sure as the essays presented in this book demonstrate so clearly there can be no one dominant notion of global citizenship education as notions of global citizenship and education are all contested and open to further argument and revision Global citizenship education does not name the moment of global citizenship or even its emergence so much as the hope of a form of order where the rights of the individual and of cultural groups irrespective of race gender ethnicity or creed are observed preserved and protected by all governments in order to become the basis of citizen participation in new global spaces that we might be tempted to call global civil society *Technology, Innovation, Entrepreneurship and Education* David Crawford,Jeremy Foss,Nicholas Lambert,Martin Reed,Jennah Kriebel,2024-06-28 This book constitutes the refereed proceedings of the 4th International Conference on Technology Innovation Entrepreneurship and Education TIE 2023 held in Cambridge UK in September 2023 The 17 full papers were carefully selected from 44 submissions and cover four areas international school projects technology in education technology for content creation and future content delivery **Pupil Management and Emerging Democratic Voices** Andrew Thomas,2025-08-18 This book addresses the distance between contemporary philosophical critiques of education and the classroom context by applying new insights from social philosophy neurology and historical analysis to common school practices Critiquing contemporary academic and political debates concerning the use and misuse of assessment tools psychometric testing and classroom management on pupils this book looks in detail at the consequences of such practices for pupil management and the nurturing of their emerging democratic voices and sense of independence This book explores these practices in the context of broader social phenomena such as the state of exception management for legibility self regulation governmentality and epidemiology Chapters link critical and philosophical
