**The Beloved Coast and Suffolk Sandlings** Robert Arthur Whitehead,1991    [England's Rural Realms](#) Edward Bujak,2007-10-24 The English countryside in the nineteenth century experienced the shifting power struggle from the great landed estates towards democratisation Challenging received scholarship that the landed estates declined in power and patronage Bujak places the Victorian globalisation of trade alongside the democratisation of the English countryside By doing so he reveals that the economic decline of the great landed estates was balanced by their continued social and political influence in the countryside up to the Great War With its focus on Suffolk a county at the forefront of agricultural improvement and thus hardest hit by the agricultural depression the patterns revealed by England s Rural Realm demonstrates the durability of the great estate system across the English countryside    **Suffolk** Tim Buxbaum,1996 County guides The Shire county guides introduce the reader whether tourist or resident to villages and towns areas of outstanding beauty museums and other tourist attractions archaeological sites churches and cathedrals coast and countryside historic buildings and gardens and famous local people Each guide is illustrated in colour and black and white and there are cross references for easy use Each includes a location map clear directions and grid references a guide to opening days telephone numbers for pre checking and a quick find index There is also a list of tourist information centres within the county

the most mysterious house in Middlesex In Durham he goes straight from choral evensong to the dog track As he seeks out the essence of each county from Yorkshire s broad acres to the microdot of Rutland Engel always finds the unexpected Engel s England is a totally original look at a confused country a guidebook for people who don t think they need a guidebook It is always quirky sometimes poignant and often extremely funny

**Humanistic Geography and Literature (RLE Social & Cultural Geography)** Douglas C. D. Pocock,2014-01-23 This book introduces the beginning student to the major concepts

materials and tools of the discipline of geography While it presents geographic theory as whole and for each of its parts the chief emphasis is on concrete analysis and example rather than on abstraction an approach which has proven more successful for undergraduate courses than those with a more heavily theoretical bias The text was extensively re written for the third edition which enhanced its clarity and effectiveness with expanded cartographic coverage

Words from the Hedge Richard Negus,2025-05-01 Words from the Hedge is a passionate evocation of the history beauty and importance of our hedgerows by a craftsman who has been laying hedges for almost three decades and has the scars to prove it Hedges are as old as civilisation and as emblematic of the British countryside as chalk streams hay meadows and oak trees But unlike woodland and rivers farmland hedges remain on the periphery of the public consciousness often going unnoticed and almost always underappreciated Wielding his pen as deftly he does a billhook professional hedgelayer Richard Negus takes us on a journey that reveals these ribbons of thorn and barb are so much more than mere decoration or boundary markers They are essential for much needed wildlife recovery If we don t get our hedges right there is little hope for species like the almost extinct turtledove And yet no hedge is truly wild each one is a testament to generations of human skill and labour requiring ongoing maintenance to survive and thrive But there is a problem we need more hedgelayers and this is something Negus is trying to solve Introducing a lively band of fellow countrymen and countrywomen along the way Negus explores everything from the practical complexities of modern farming and land ownership to the challenges faced by conservationists Written with vigour and humour as well as rare insight and honesty Words from the Hedge is a timely exploration of how we can use hedges to make the British countryside a place where nature has a home

Durham and St Thomas of Canterbury in the 15th century the Yorkshire religious house Monk Betton priory and its hinterlands in the 16th century some pictorial migrations in the Reformation an early Christian school of sanctity in Tridentine Rome Richard Mead s communities of belief in 18th century London and St Francis and modern English sentiment
