The Bhagawad Geeta Part Eight:

Christian Responses to Five Views of the Bhagavad Gita Tom Wilson, 2021-08-06 Of all the Hindu Scriptures the Bhagavad Gita is the most widely read by Western audiences Its brevity belies its complexity as with all sacred texts the only way to fully understand its teaching is to learn from those who live out a faith based on that text This book examines five different readings of the Bhagavad Gita juxtaposing these readings with a Western Protestant Christian response to both the text and the ideas and theology that lie beneath the surface of the text Written for students and practitioners of interfaith dialogue it is a resource to enable richer and deeper conversations between Hindus and Christians *Managing by the Bhagavad Gītā* Satinder Dhiman, A. D. Amar, 2018-11-27 Drawing upon the timeless wisdom of the Bhagavad Gītā a philosophical spiritual world classic this professional book highlights the spiritual and moral dimensions of management using an inside out leadership development approach It interprets the Bhagavad Gītā's teachings on the personality types and psychological makeup of managers and employees self knowledge and self mastery and the leadership concepts of vision motivation and empowerment This book covers topics such as training of the mind ethical leadership communication stress management and corporate social responsibility CSR Collectively the enclosed contributions provide managers with an enhanced outlook on management functions such as leading planning organizing and controlling in today's organizations particularly those run by knowledge workers Management research in the 20th century has mainly focused on the industrial paradigm characterized by a hierarchical structure of authority and responsibility with an individualistic focus on the personality of the manager However this traditional paradigm cannot solve many of the problems that confront leaders and managers today Recent studies have shown that values traditionally associated with spirituality such as integrity honesty trust kindness caring fairness and humility have a demonstrable effect on managerial effectiveness and success Although traditionally interpreted as a religious spiritual text the Bhagavad Gītā teaches these values which can be extrapolated and applied to practical management lessons in today's corporate boardrooms Applying the text of the Bhagavad Gītā to the context of management this book views the manager as an enlightened sage who operates from a higher stance guided by self knowledge and self mastery It demonstrates how character is the key ingredient for effective management and leadership This book is therefore applicable to all managers from first line to CEOs in their management and leadership roles in organizations

to another One apartment is first class another is second class and another is third class Suppose a person comes from a lower class apartment to a first class apartment the person is the same but now according to his capacity for payment or karma he is able to occupy a higher class apartment Real evolution does not mean physical development but the development of Consciousness Do you follow The apartment already exists however it is not the lower class apartment that becomes the higher class apartment That is Darwin s nonsensical theory He would say that the apartment has become high class Modern scientists think that life has come from matter They say that millions and millions of years ago there was simply matter but no life We do not accept that Of the two energies life and matter life or spirit is the original superior energy and matter is the resultant inferior energy Spirit is independent and matter is dependent Dr Singh All that you have been saying completely contradicts Darwin s theory of evolution Srila Prabhupada Darwin and his followers are rascals If originally there were no higher species why do they exist now Also why do the lower species still exist For example at the present moment we see both the intellectual person and the foolish ass Why do both these entities exist simultaneously Why hasn t the ass form evolved upwards and disappeared Why do we never see a monkey giving birth to a human In Bhagavad Gita the word yantra or machine means that in any species of life we are traveling in bodies that are like machines provided by material nature
