*The Gospel in the Stars* Joseph Augustus Seiss, 1882 *The Bible as Literature* Richard Green Moulton, John Punnett Peters, Alexander Balmain Bruce, 1896 *Bible and the Stars* Corinne Helene, 1986-06-01

**The Gospel in the Stars** Joseph Augustus Seiss, 1884 This fully illustrated volume will captivate the interest of those pursuing a study of astronomy and of Bible students seeking reinforcing truths concerning the unity of creation and revelation

**The Bible, the Stars, the Signs, the Prophecies of Scripture** Duncan N. Dewatters, 2017-05-28 Independent Baptist Pastor Duncan N deWatters guides the reader through the Scripture showing how God used specific stars in the heavens as markers and prophecy to exalt His Son Jesus Christ and predict His birth and ultimately His return for His People In a day when new prophets are appearing every year saying the Lord is here or the Lord is there Pastor deWatters goes to the Old Book and shows the Christian reader how to discern what is Scriptural and what is nonsense in End Times ministries

**The Witness of the Stars** Ethelbert William Bullinger, 2020-09-28 Some years ago it was my privilege to enjoy the acquaintance of Miss Frances Rolleston of Keswick and to carry on a correspondence with her with respect to her work *Mazzaroth or the Constellations* She was the first to create an interest in this important subject Since then Dr Seiss of Philadelphia has endeavoured to popularize her work on the other side of the Atlantic and brief references have been made to the subject in such books as *Moses and Geology* by Dr Kinns and in *Primeval Man* but it was felt for many reasons that it was desirable to make another effort to set forth in a more complete form the witness of the stars to prophetic truth so necessary in these last days To the late Miss Rolleston however belongs the honour of collecting a mass of information bearing on this subject but published as it was chiefly in the form of notes unarranged and unindexed it was suited only for but was most valuable to the student She it was who performed the drudgery of collecting the facts presented by Albumazar the Arab astronomer to the Caliphs of Grenada 850 a d and the Tables drawn up by Ulugh Beigh the Tartar prince and astronomer about 1650 a d who gives the Arabian Astronomy as it had come down from the earliest times

Modern astronomers have preserved and still have in common use the ancient names of over a hundred of the principal stars which have been handed down but now these names are used merely as a convenience and without any reference to their significance This work is an attempt to popularize this ancient information and to use it in the interests of truth For the ancient astronomical facts and the names with their signification I am from the very nature of the case indebted of course to all who have preserved collected and handed them down but for their interpretation I am alone responsible It is for the readers to judge how far my conclusions are borne out by the evidence and how far the foundation of our hopes of coming glory are strengthened by the prophecies which have been written in the stars of heaven as well as in the Scriptures of truth
