The Cathedrals A Farewell Celebration:

The Cathedrals A Farewell Celebration , A concert paying tribute and saying farewell to the Cathedrals filmed at the Ryman Auditorium in Nashville Tennessee **The Secret of the Cathedral** E. R. Ramdohr,2024-12-08 Since ancient times there were brotherhoods of builders who were the only ones who knew the art of construction In Rome they were called Caementarius in France Macons in England Freemasons and in Germany Freimaurer These lodges transmitted their knowledge as inviolable secrets among the brothers But in addition they were very educated men who contributed to the development of culture at a time when it was at rock bottom They were the only ones capable of building churches palaces castles and bridges so they enjoyed special privileges received very good pay for their work had the right to travel through the countries of Europe to meet in secret sessions and did not pay taxes neither to the state nor to the Church We know very little about them because they left few written testimonies or perhaps because the Church destroyed them for being too liberal in thought During the Middle Ages it was they who built the magnificent Gothic cathedrals that still exist today In this novel a German born Freemason arrives to work on the construction of the Burgos Cathedral and decides to leave his story for posterity Thus we learn about the way they approached their work as well as their personal lives and their relationships with the representatives of earthly and divine power
