Ogling Ladies Sandra Lindemann Summers, 2019-03-18 In the European Middle Ages the harm a person's gaze could cause was greatly feared. A stare was considered an act of aggression; intense gazing was believed to exert immense power over the individual observed. The love of looking or scopophilia is a common motif among female figures in medieval art and literature where it is usually expressed as a motherly or sexually interested gaze; one sanctioned the other forbidden. Sandra Summers investigates these two major variants of female voyeurism in exemplary didactic and courtly literature by medieval German authors. Setting the motif against the period's dominant patriarchal ethos and its almost exclusive pattern of male authorship, Summers argues that the maternal gaze was endorsed as a stabilizing influence while the erotic gaze was condemned as a threat to medieval order. Summers examines whether medieval artists and writers invented the idea of ogling or whether they were simply recording a behavioral practice common at the time. She investigates how the act of ogling altered the narrative trajectory of female characters and she also considers how it may have affected the regulation and restriction of women during Europe's Middle Ages. Drawing upon contemporary gender studies, women's studies, film studies, and psychology, Summers argues that the female gaze ultimately governs social formation. The exploration of the female gaze in period literature transcends medieval scholarship and impacts our understanding of the broader problem of gender perceptions and social structuring in Western civilization.

Studies in the Age of Chaucer Frank Grady, 2003-12-15 *Studies in the Age of Chaucer* is the annual yearbook of the New Chaucer Society publishing articles on the writing of Chaucer and his contemporaries, their antecedents and successors, and their intellectual and social contexts. More generally, articles explore the culture and writing of later medieval Britain, 1200-1500. Each SAC volume also includes an annotated bibliography and reviews of Chaucer-related publications.

Arthurian Narrative in the Latin Tradition Siân Echard, 1998-09-10 Arthurian literature is a popular field, but most of the published work focuses on the vernacular tradition. This book uniquely looks at Latin Arthurian works. Geoffrey of Monmouth is treated at length, and this is the first book to put him in a context which includes other Latin histories, monastic chronicles, saints' lives, and other Latin prose Arthurian narratives. Like Geoffrey's works, most can be associated with the Angevin court of Henry II, and by placing these works against the court background, this book both introduces a new set of texts into the Arthurian canon and suggests a way to understand their place in that tradition. The unfamiliar works are summarized for the reader, and there are extensive quotations with translations throughout. The result is a thorough exploration of Latin Arthurian narrative in the foundational period for the Arthurian tradition.
