The Chinese Herb Selection Guide:

The Chinese Herb Selection Guide Charles A. Belanger, 1997 **Chinese Herbal Formulas: Treatment Principles and Composition Strategies E-Book** Yifan Yang, 2010-01-26

Traditionally the study of Chinese herbal formulas has involved memorizing hundreds of classic formulas and recognizing and summarizing the relevant treatment rules and formula making strategies in order to create appropriate formulas for treatment. This new book by Yifan Yang, author of *Chinese Herbal Medicines: Comparisons and Characteristics*, which pioneered the comparative method of single herb study, introduces a new approach to formula study. The reader is shown how to use the basic treatment rules and composition strategies abstracted from hundreds of formulas in order to create individual formulas for treating a variety of syndromes. The method is clear and easy to understand with a systematic approach and an emphasis on essential knowledge. Key features: 19 common syndromes and 60 sub syndromes are described and discussed in detail, illustrated with clear line drawings. Chinese diagnosis of syndromes are related to the Western disease names. Treatment principles and plans are given for each syndrome. Principles of herb selection are introduced with recommendations and explanations of specific herbs in relation to each syndrome. 166 classic formulas are given as examples. Treatment strategies in complicated syndromes, treatment sequences, cautionary advice for herbs and combinations with Western drugs, dosage management in a variety of conditions, and commonly used pairs of herbs are all discussed. Detailed indexes and contents lists facilitate quick reference and searching within the text. *Chinese Herbal Formulas: Treatment Principles and Composition Strategies* is written by an experienced practitioner and lecturer of Chinese herbal medicine. It is the ideal companion to *Chinese Herbal Medicines: Comparisons and Characteristics* by the same author. Offers a method of learning formula composition clearly and concisely. Detailed syndrome differentiation and analysis help students to understand the syndromes and give clear orientation in their treatment plan. Includes clear and detailed information on selection of herbs. Abstracts from each chapter allow practitioners to quickly select herbs in the clinical practice. Also covers dosage management, special strategies for treated complicated cases, contraindications of using formulas and treatment orders.

An ^Aillustrated Chinese Materia Medica Jing-Nuan Wu, 2005-04-28

One of the cornerstones of traditional Chinese medicine, TCM herbal medicine has evolved over centuries of clinical practice and empirical results into a vast body of knowledge encompassing more than 6 000 substances, most of whose effects and uses have been documented and researched. The literature on Chinese medicinal herbs is unparalleled and unsurpassed in the world's medical knowledge. The earliest known pharmacological work was composed before the end of the third century B.C. The first classical Chinese materia medica appeared during the late Han dynasty (25-220 A.D.) and included 365 entries of botanical, zoological, and mineral substances, listing their properties and effects. Subsequent materia medica were assembled during virtually every dynasty from the Liang (456-536 A.D.) to the Qing (1645-1911). Among the major treatments published during these centuries was the 30-volume *Materia Medica Arranged According to Pattern*, which had

1558 entries more than 3 000 formulae and became the official pharmacopoeia of herbal medicine in China for 500 years n Illustrated Chinese Materia Medica brings to the English language a lavishly illustrated atlas of the 320 herbs used most frequently in traditional Chinese medical practice Each substance is profiled authoritatively in monographs that provide pharmaceutical botanical and English names flavor properties and channel tropisms functions clinical uses and major combinations dosage and administration and precautions Intended for medicinal and pharmaceutical chemists as well as practitioners of homeopathic and alternative medicines this materia medica offers a unique blend of authenticity that is derived from knowledge of classical Chinese literature with a clearly practical objective of persenting valuable information in a straightforward easily comprehensible style The Healing Power of Chinese Herbs and Medicinal Recipes Joseph P. Hou, Youyu Jin, 2005 The Healing Power of Chinese Herbs and Medicinal Recipes is an easy to follow introduction to the history and fundamentals of traditional Chinese medicine This useful guide clearly explains the basics of this unique medical system and describes in detail the therapeutic properties and use of 138 medicinal herbs and 101 herbal recipes The book includes a bibliography glossary contact information for herbal dealers and Oriental medicine schools and an indexed list of 300 commonly used Chinese medicinal herbs and 245 herbal recipes This comprehensive reference will benefit healthcare practitioners with an interest in using Oriental medicine in addition to anyone who is interested in Chinese herbs or patients for which conventional medicine has offered no relief To view an excerpt online find the book on our QuickSearch catalog at [www HaworthPress com](http://www.HaworthPress.com)
