**The Choctaw before Removal** Carolyn Keller Reeves, 2009-10-20 With essays by William Brescia Jr Robert B Ferguson Patricia K Galloway John D W Guice Grayson Noley Carolyn Keller Reeves Margaret Zehmer Searcy and Samuel J Wells This book focuses upon Choctaw history prior to 1830 when the tribe forfeited territorial claims and was removed from native lands in Mississippi The included essays emphasize Choctaw anthropology beliefs and experience with the US government prior to the tribe s removal to Oklahoma Attention is focused upon the ways in which European groups frontiersmen and state and federal officials affected the Choctaw ideology This collection shows the relationship among the various forces that combined to erode the culture economy and political structure of the Choctaw *Slavery and Frontier Mississippi, 1720-1835* David J. Libby, 2004 American history African American studies In the popular imagination the picture of slavery frozen in time is one of huge cotton plantations and opulent mansions However in over a hundred years of history detailed in this book the hard reality of slavery in Mississippi s antebellum world is strikingly different from the one of popular myth It shows that Mississippi s past was never frozen but always fluid It shows too that slavery took a number of shapes before its form in the late antebellum mold became crystalized for popular culture The colonial French introduced African slaves into this borderlands region situated on the periphery of French Spanish and English empires In this frontier planter society made unsuccessful attempts to produce tobacco lumber and indigo Slavery outlasted each failed harvest Through each era plantation culture rode the back of a system far removed from the romantic stereotype Almost simultaneously as Mississippi became a United States territory in the 1790s cotton became the cash crop The booming King Cotton economy changed Mississippi and adapted the slave system that was its foundation Some Mississippi slaves resisted this grim oppression and rebelled by flight work slowdowns arson and conspiracies In 1835 a slave conspiracy in Madison County provoked such draconian response among local slave holders that planters throughout the state redoubled the iron locks on the system Race relations in the state remained radicalized for many generations to follow Beginning with the arrival of the first African slaves in the colony and extending over 115 years this book is the first such history since Charles Sydnor s *Slavery in Mississippi* 1933 David J Libby an independent scholar lives in San Antonio Texas His work has been published in *CrossRoads A Journal of Southern Culture*

**Dimensions of Native America** Jehanne Teilhet-Fisk, Robin Franklin Nigh, 1998 From the introduction The collision and reconciliation of meanings and interpretations found in the arts of and by Native Americans is the theme that dominates Dimensions of Native America the Contact Zone Arts change through cultural drift or through a form of acculturation or contact with a foreign culture This exhibition focuses on the Native American arts that changed as a result of contact with Euroamericans through acculturation or assimilation At the same time Euroamerican art also changed through contact with Native American cultures The exhibition is concerned with those acculturated art forms made by both Native Americans and Euroamericans that deliberately converge with and often appropriate each other s cultural properties New concepts of technology in making art new media new subject matter new styles and new or different canons of aesthetics that were absent in a pre contact situation for the Native and non Native are now integrated into the visual and performing arts By focusing on the acculturated arts this exhibition will provide our multi cultural community with a framework for better understanding and appreciating how these arts express fertile new ideas that are integrated into the matrix of tribe culture or society A further objective is to question the accuracy and intentions of the Western artists particularly from the nineteenth and early twentieth centuries who appropriated cultural property from the different American Indian tribes making visual constructions of them in alignment with the prevailing objectives of the dominant culture at that time These arts can then be compared with the visual constructions made by contemporary North American Indian and non Indian artists of the late twentieth century whose internationally recognized works address in avant garde terms what it means to construct ethnic identities and cultural experiences that can and have led to misrepresentations of cultural truths and

stereotypes This exhibition is the effort of a group of enthusiastic undergraduates and graduates who took in the spring of 1996 my art history course on the arts and cultures of the Southwest the Pueblo and Navajo Din peoples Since Florida State University has identified with and valorized the achievements of the Florida Seminole Tribe the group felt it fitting for FSU students to organize and develop a campus exhibition addressing aspects of past and present American Indian art and culture Working under extraordinary time constraints and limited funding these six undergraduates and eleven graduates never wavered in their commitment to this project All of the students felt the need to see the arts and visit the cultural areas they were writing about
