The Heyday of Old Oak Common and Its Locomotives Chris Leigh, Richard Callcott Riley, 1993 Great British Steam Locomotives that Made History Rosa Matheson, 2025-09-18 From small beginnings in ancient times the magic of steam grew until it delivered to an incredulous world a magnificent machine the steam locomotive and so began what was to become a never ending love story Many believed the Age of Steam would die in the 1960s but the passion for these much loved and admired locomotives has ensured they live on into the twenty first century as we celebrate 200 years of the Stockton Darlington Railway In this exciting new approach to exploring Britain s railway history popular railway historian Rosa Matheson examines the stories of steam locomotives that made history from the famous and the favourites to the lesser known or talked about With interesting facts and related new research and discussions *Great British Steam Locomotives that Made History* is a must read for enthusiasts and historians alike as well as for those seeking a good way into railway history and policy *Ottley's Bibliography of British Railway History. Second Supplement 12957-19605* ,1998 *Great Western Castle Class 4-6-0 Locomotives, 1923-1959* David Maidment, Bob Meanley, 2023-02-16 The Great Western Castles were one of the most successful locomotive designs of the twentieth century in terms of both performance and efficiency Designed by Charles Collett in 1923 based on the 1907 Churchward Star class 155 were constructed almost continuously apart from the war years between 1923 and 1950 in addition to fifteen rebuilt Stars and one rebuilt from the Great Bear pacific Many were modernised with increased superheat and double chimneys in the late 1950s and the class continued to be the mainstay of all Western Region express passenger services to the West Country South Wales Gloucestershire Herefordshire and the West Midlands until replaced by the WR diesel hydraulic fleet in the early 1960s This book covers their design in a chapter written by Bob Meanley who masterminded the restoration at Tyseley Works of the Castles Earl of Mount Edgcumbe and Clun Castle and their history operation and performance from the high speed of the 1930s through to their rejuvenation in the 1950s leaving experience of their last years and preservation to another volume David Maidment had close experience of the class when working at Old Oak Common between 1957 and 1962 and includes his personal experiences there and on the road from his first encounter with one as a six year old boy The book includes 350 photographs some 40 in color and 23 detailed Swindon technical drawings Those WERE the Days Barrie C. Woods, 2017-11-22 A fascinating tale of a young school boy s exploits in his quest to spot every steam locomotive in the UK during the 1950s such as the Castleford Snow occurrence contretemps with a herd of Bullocks run ins with the law and shed foremen sleeping rough on many occasions a scary walk over Crumlin viaduct our coach catching fire on the M1 plus many more we visited locomotive sheds over 600 times during which I recorded in excess of 21 000 engines We travelled by any means available coach bus mini bus bicycle car motorbike train ferry and a lot of hitchhiking The latter including one such ride on a 9F which took me right into the shed I was about to bunk We would take every opportunity to be by our beloved steam engines daily on the way to from school then again in the

evenings and every 2 3 weeks off an a tour somewhere in the UK some of these lasted 4 5 days often with rather dubious overnight accommodation these tours were to all parts of the UK from South Wales to Aberdeen the Northwest Northeast Midlands North Wales south to Brighton Southampton Isle of Wight West country and dozens of other locations The book has full colour card covers is A4 portrait style of 185 pages and over 100 B W photos At the end of the text are two appendices the first lists every shed visited and the relevant dates the second lists in chronological order every locomotive seen its shed and date Barrie *200 Years of Locomotive Development* Richard Marks,2026-04-28 Since Richard Trevithick s first forays into the development of the steam locomotive Britain s engineers have been at the forefront of railway technology Often innovative and sometimes unfairly maligned the country s locomotive engineers continually broke new barriers in traction technology although not everything was successful From the earliest simple steam locomotives to the latest diesel and electric engines Britain had led the way in railway locomotion although competition from European Japanese and American manufacturers sometimes exceeded what British engineers had achieved In this new book industrial and railway historian Dr Richard Marks provides fresh insights into Britain s role in railway locomotive design and technology and examines the highlights of British developments from Trevithick s Coalbrookdale locomotive to the Brush Class 60 diesel locomotive Based upon new research this useful primer aims to start the reader on a journey of discovery unravelling some of the myths which have arisen around Britain s railway history and explaining in an easy to follow narrative why some potentially advantageous developments failed to live up to expectations In this new survey of 200 years of British locomotive history to accompany the Railway 200 celebrations the reader is presented with a compelling and easy to read introduction to a complex but intriguing subject **The Times British Railways: The illustrated history of a national institution** Julian Holland,Times Books,2025-10-09 Written by best selling author Julian Holland this is the story of British Railways From its birth in 1948 to its demise in 1994 it was both loved and loathed by the country s hard pressed travelling public most of whom didn t own a car Take a trip down memory lane and discover the story of the rise and fall of a British institution **Great Western: Eight Coupled Heavy Freight Locomotives** David Maidment,2015-06-30 Great Western Eight Coupled Heavy Freight Locomotives is the first of a series of Locomotive Profiles to be published by Pen Sword It will describe the conception design building and operation of the fleet of powerful locomotives built in the first half of the twentieth century to meet the demands of the growing South Wales coal and steel industries and the West Midlands area served by the Great Western Railway Whilst concentrating mainly on the standard designs of the great locomotive engineer George Jackson Churchward the 28XX and 47XX 2 8 0 locomotives it will also cover the 2 8 0 and 2 8 2 tank engines designed for the South Wales Valleys mining areas and coal exports through Newport Cardiff Barry and Swansea Docks and other 2 8 0 locomotives acquired by the Great Western to cope with the increased industrial needs during both world wars the RODs Swindon built 8Fs WDs and American S160s It will also cover the earliest designs of the Barry and Port Talbot Railways intended to cope with the valley coal traffic
