Secret Sharers Jennifer Spitzer,2023-02-21 **Secret Sharers** traces a genealogy of secret sharing between literary modernism and psychoanalysis focusing on the productive entanglements and intense competitive rivalries that helped shape Anglo American modernism as a field As Jennifer Spitzer reveals such rivalries played out in explicit criticism inventive

misreadings and revisions of Freudian forms from D H Lawrence's re-descriptions of the unconscious to Vladimir Nabokov's parodies of the psychoanalytic case study. While some modernists engaged directly with Freud and Freudian psychoanalysis with unmistakable rivalry and critique, others wrestled in more complex ways with Freud's legacy. The key protagonists of this study, D H Lawrence, Virginia Woolf, W H Auden, and Vladimir Nabokov, are noteworthy for the way they engaged with, popularized, and revised the terms of Freudian psychoanalysis while also struggling with it as an encroaching discourse. Modernists read psychoanalysis, misread psychoanalysis, and sometimes refused to read it altogether while expressing anxiety about being read by psychoanalysis, subjecting themselves and their art to psychoanalytic interpretations. As analysts such as Freud, Ernest Jones, and Alfred Kuttner turned to literature and art to illustrate psychoanalytic theories, modernists sought to counter such reductive narratives by envisioning competing formulations of the relationship between literature and psychic life. Modernists often expressed ambivalence about the probing symptomatic style of psychoanalytic interpretation and responded with a re-doubling of arguments for aesthetic autonomy, formal self-consciousness, and amateurism. Secret Sharers reveals how modernists transformed the hermeneutic and diagnostic priorities of psychoanalysis into novel aesthetic strategies and distinctive modes of epistemological and critical engagement. In reassessing the historical and intellectual legacies of modernism, this book suggests that modernist responses to psychoanalytic criticism anticipate more recent critical debates about the value of symptomatic reading and the hermeneutics of suspicion. Staging Voice Michal

Grover-Friedlander, 2021-12-24. *Staging Voice* is a unique approach to the aesthetics of voice and its staging in performance. This study reflects on what it would mean to take opera's decisive attribute, voice, as the foundation of its staged performance. The book thinks of staging through the medium of voice. It is a nuanced exploration which brings together scholarly and directorial interpretations and engages in detail with less frequently performed works of major and influential 20th-century artists: Erik Satie, Bertolt Brecht, and Kurt Weill, as well as exposing readers to an innovative experimental work of Evelyn Ficarra and Valerie Whittington. The study is intertwined throughout with the author's staging of the works, accessible online. This book will be of great interest to students and scholars in voice studies, opera, music theatre, musicology, directing, performance studies, practice-based research, theatre, visual art, stage design, and cultural studies. *Talking in Whispers*,
