

The Chains Of Protection

Great Britain. Army. Royal Engineers

The Chains Of Protection:

Insulin Pedro Cuatrecasas, Steven Jacobs, 2012-12-06 It is fourteen years since insulin was last reviewed in The Handbook of Experimental Pharmacology in volume 32 The present endeavor is more modest in scope Volume 32 appeared in two separate parts each having its own subeditors and together the two parts covered nearly all areas of insulin pharmacology Such comprehensiveness seemed impractical in a new volume The amount of information related to insulin that is now available simply would not fit in a reasonable amount of space Furthermore for better or worse scientists have become so specialized that a volume providing such broad coverage seemed likely in its totality to be of interest or value to very few individuals We therefore decided to limit the present volume to the following areas insulin chemistry and structure insulin biosynthesis and secretion insulin receptor and insulin action at the cellular level We felt these areas formed a coherent unit We also felt perhaps as much because of our own interests and perspectives as any objective reality that these were the areas in which recent progress has been most dramatic and yet paradoxically and tantalizingly these were the areas in which most has yet to be learned Even with this limited scope there are some major gaps in coverage Regrettably two important areas the beta cell ATP sensitive potassium channel and the glucose transporter were among these Nevertheless the authors who contributed have done an excellent job and we would like to thank them for their diligence

Hearts Touched by Fire Harold Holzer, 2011-04-05 In July 1883 just a few days after the twentieth anniversary of the Battle of Gettysburg a group of editors at The Century Magazine engaged in a lively argument Which Civil War battle was the bloodiest battle of them all One claimed it was Chickamauga another Cold Harbor The argument inspired a brainstorm Why not let the magazine's 125 000 readers in on the conversation by offering a series of papers on some of the great battles of the war to be written by officers in command on both sides The articles would be written by generals Union and Confederate alike who had commanded the engagements two decades earlier or if he were not living by the person most entitled to speak for him or in his place The pieces would present both sides of each major battle and would be fair and free of politics In commemoration of the 150th anniversary of the Civil War the most enduring entries from the classic four volume series Battles and Leaders of the Civil War have now been edited and merged into one definitive volume Here are the best of the immortal first person accounts of the Civil War originally published in the pages of The Century Magazine more than a hundred years ago Hearts Touched by Fire offers stunning accounts of the war's great battles written by the men who planned fought and witnessed them from leaders such as General Ulysses S Grant General George McClellan and Confederate captain Clement Sullivane to men of lesser rank This collection also features new year by year introductions by esteemed historians including James M McPherson Craig L Symonds and James I Robertson Jr who cast wise modern eyes on the cataclysm that changed America and would go down as the bloodiest conflict in our nation's history No one interested in our country's past will want to be without this collection of the most popular and influential first person Civil War memoirs
