British Medical Journal ,1890 **Gaillard's Medical Journal and the American Medical Weekly** ,1890 *The American Gynaecological and Obstetrical Journal* ,1898 Contains the official transactions of the New York Obstetrical Society the Philadelphia Obstetrical Society the Chicago Gynaecological Society the Woman s Hospital Society of New York and others

Childhood Leukemia and Cancer, An Issue of Pediatric Clinics Yaddanapudi Ravindranath,2014-12-26 This issue concentrates on the current evidence and the collected experience of pediatric oncologists who care for cancer patients The individual articles will provide the general pediatrician with a comprehensive primer on diagnosing and managing

various types of cancers in the child with cancer A cancer diagnosis is no longer a death sentence so management and monitoring is very important and covered in every article **The Boston Medical and Surgical Journal** ,1894

Whaley & Wong's Essentials of Pediatric Nursing Donna L. Wong,1993 Provides basic information that is essential to the delivery of safe comprehensive and holistic nursing care to children and their families The China Medical Missionary Journal ,1898 Children With Cancer Christine Eiser,2004-04-12 Cancer is a very rare disease in children There have been impressive gains in survival in recent years and these have been achieved through the use of chemotherapy and national and international clinical trials The diagnosis of cancer in a child imposes considerable stress on the whole family In the immediate time after diagnosis parents must learn about the disease and its treatment explain what is happening to the child and make arrangements for the care of other children in the family For the child treatment is associated with many side effects depending on the specific drugs used In addition the child is prone to infection and therefore is likely to miss a lot of school and other activities For all these reasons physicians and families have become aware that cancer has huge implications for the quality of the child s life This book is an attempt to describe how quality of life is affected at different stages of the disease process Comprehensive reviews are provided of the impact on the child s physical activity social life and school and educational achievements Special consideration is given to children with leukemia one of the more common cancers and brain tumors Cancer does not just affect the child but every member of the family Consequently there is coverage of the effects on parents and also healthy brothers and sisters To the extent that improvements in survival have been achieved by national and international collaboration between clinicians it is concluded that efforts to improve the quality of these children s lives is dependent on collaboration between clinicians nurses and behavioral scientists at national and international levels This book should provide an impetus for such collaboration **Pediatric Radiation Oncology** Louis S. Constine,Nancy J. Tarbell,2011 Pediatric Radiation Oncology is the definitive text and reference on use of radiation therapy for childhood cancer The fifth edition reviews all significant recent clinical trials including for the first time significant European clinical trials and provides increased coverage of international and Third World issues The latest cancer staging guidelines are included New chapters cover psychosocial aspects of radiotherapy for the child and family and medical management of pain nausea nutritional problems and blood count depression in the child with cancer Provided by publisher
