**The Christian Reformer, Or, Unitarian Magazine and Review**, 1846      *Pragmatic Magical Thinking* Ari Freeman, 2023-10-31 Reclaiming magic and magical thought in the modern mainstream world The modern Western world has often raised its eyebrows at magic associating it with madness and superstition However this ignores the fact of the matter that magic is a universal human experience which has existed in a multitude of forms across time and space Now in his groundbreaking book Ari Freeman presents his argument that magic is still a human universal we've just forgotten how to talk about it Laying out clear and concise arguments *Pragmatic Magical Thinking* will enlighten readers to how magic can be a practical approach to achieving real world results drawing on evidence from science philosophy history and anthropology For both beginners at magic and the long practicing witch or wizard Ari Freeman's book is a breath of fresh air for the world of magical studies inviting readers to join him in placing magic in its rightful place as a serious and mainstream subject of conversation and enquiry *Pragmatic Magical Thinking* covers a wide and comprehensive selection of subjects in relation to your magical education These include but are not limited to magic and memory spirits belief magic in everyday life science and magic religion and magic Kabbalist cosmology and morality      *The Christ of To-day* George Angier Gordon, 1896

**The Christian Life**, 1884      *Soundings in the Christian Mystical Tradition* Harvey D. Egan, 2010-10-01 Called in a special way to listen to God's whispers the mystics amplify not only what it means to be baptized into the life death and resurrection of Jesus Christ and to having the Trinity living in them but also what is deepest in the human spirit Mystics experience themselves as an infinite question to which only God is the answer as an immense longing that only Love can quench as a nothing in the face of the No Thing They are God's fools troubadours the great artists and poets of the interior life whose learned ignorance articulates the art of loving God neighbor self the Church and the world In *Soundings in the Christian Mystical Tradition* Harvey Egan draws on fifty years of reading and teaching the mystics to sketch the varieties and passion of the mystical life across more than two millennia Through their stories and words Egan reveals that all were conscious of the paradox of human identity supremely and unsurpassably manifested in the God Man that the genuinely human is disclosed only through surrender to God and that the search for God cannot bypass the genuinely human Harvey D Egan SJ is the author of numerous works on Christian mysticism and the thought of Karl Rahner He is currently professor of systematic and mystical theology at Boston College      **Kierkegaard, Mimesis, and Modernity** Wojciech

Kaftanski, 2021-10-03 This book challenges the widespread view of Kierkegaard's idiosyncratic and predominantly religious position on mimesis Taking mimesis as a crucial conceptual point of reference in reading Kierkegaard this book offers a nuanced understanding of the relation between aesthetics and religion in his thought Kaftanski shows how Kierkegaard's dialectical existential reading of mimesis interlaces aesthetic and religious themes including the familiar core concepts of imitation repetition and admiration as well as the newly arisen notions of affectivity contagion and crowd behavior

Kierkegaard's enduring relevance to the malaises of our own day is firmly established by his classic concern for the meaning of human life informed by reflective meditation on the mimetic origins of the contemporary age. Kierkegaard Mimesis and Modernity will be of interest to scholars and advanced students working on Kierkegaard. Continental philosophy, the history of aesthetics and critical and religious studies. **The Antiquities of the Christian Church** Joseph Bingham, 1856      Christian Sacred Music in the Americas Andrew Shenton, Joanna Smolko, 2021-02-17. Christian Sacred Music in the Americas explores the richness of Christian musical traditions and reflects the distinctive critical perspectives of the Society for Christian Scholarship in Music. This volume, edited by Andrew Shenton and Joanna Smolko, is a follow-up to SCSM's *Exploring Christian Song* and offers a cross-section of the most current and outstanding scholarship from an international array of writers. The essays survey a broad geographical area and demonstrate the enormous diversity of music-making and scholarship within that area. Contributors utilize interdisciplinary methodologies including media studies, cultural studies, theological studies, and different analytical and ethnographical approaches to music. While there are some studies that focus on a single country, musical figure, or region, this is the first collection to represent the vast range of sacred music in the Americas and the different approaches to studying them in context.

Life of Christian Daniel Rauch of Berlin, Germany Cheney, Ednah Dow Littlehale, 1824-1904., Mrs. Ednah Dow Littlehale Cheney, Friedrich Eggers, Karl Eggers, 1892      **The Christian Leader**, 1941      **Bible Society record**, 1883      **Outlook** Alfred Emanuel Smith, Francis Walton, 1888      *The National Habitus* Marie-Pierre Le Hir, 2014-08-27. Stories about border crossers, illegal aliens, refugees that regularly appear in the press everywhere point to the crucial role national identity plays in human beings' lives today. *The National Habitus* seeks to understand how and why national belonging became so central to a person's identity and sense of identity. Centered on the acquisition of the national habitus, the process that transforms subjects into citizens when a state becomes a nation-state, the book examines this transformation at the individual level in the case of nineteenth-century France. Literary texts serve as primary material in this study of national belonging because, as Germaine de Staël pointed out long ago, literature has the unique ability to provide access to inner feelings. The term habitus in the title of this book signals a departure from traditional approaches to nationalism: a break with the criteria of language, race, and ethnicity typically used to examine it. It is grounded instead in a sociology that deals with the subjective dimension of life and is best exemplified by the works of Norbert Elias (1897-1990) and Pierre Bourdieu (1931-2002), two sociologists who

approach belief systems like nationalism from a historical instead of an ethical vantage point By distinguishing between two groups of major French writers three who experienced the 1789 Revolution firsthand as adults Olympe de Gouges Fran ois Ren de Chateaubriand and Germaine de Sta l and three who did not Stendhal Prosper M rim e and George Sand the book captures evolving understandings of the nation as well as thoughts and emotions associated with national belonging over time Le Hir shows that although none of these writers is typically associated with nationalism all of them were actually affected by the process of nationalization of feelings thoughts and habits irrespective of aesthetic preferences social class or political views By the end of the nineteenth century they had learned to feel and view themselves as French nationals they all exhibited the characteristic features of the national habitus love of their own nation distrust and or hatred of other nations By underscoring the dual contradictory nature of the national habitus the book highlights the limitations nation based identities impose on the prospect for peace
