The Beautiful Empire:

Alexander the Great Ian Worthington, 2014-07-10 Alexander the Great conquered territories on a superhuman scale and established an empire that stretched from Greece to India. He spread Greek culture and education throughout his empire and was worshipped as a living god by many of his subjects. But how great is a leader responsible for the deaths of tens of thousands of people? A ruler who prefers constant warring to administering the peace? A man who believed he was a god who murdered his friends and recklessly put his soldiers' lives at risk? Ian Worthington delves into Alexander's successes and failures, his paranoia, the murders he engineered, his megalomania, and his constant drinking. It presents a king corrupted by power and who, for his own personal ends, sacrificed the empire his father had fought to establish.

The Great Transformation Karen Armstrong, 2006-03-28 NATIONAL BESTSELLER An extraordinary investigation of a critical moment in the evolution of religious thought from the New York Times bestselling author of *A History of God* and *The Spiral Staircase*. A splendid book. Lucid, highly readable. Relevant to a world still embroiled in military conflict and sectarian hatreds. The New York Times In the ninth century BCE, events in four regions of the civilized world led to the rise of religious traditions that have endured to the present day: development of Confucianism and Daoism in China; Hinduism and Buddhism in India; monotheism in Israel; and philosophical rationalism in Greece. Armstrong, one of our most prominent religious scholars, examines how these traditions began in response to the violence of their time. Studying figures as diverse as the Buddha and Socrates, Confucius and Jeremiah, Armstrong reveals how these still-enduring philosophies can help address our contemporary problems.

The Great Illusion Norman Angell, 1910

The Great Game in West Asia Mehran Kamrava, 2017 The Great Game in West Asia examines the strategic competition between Iran and Turkey for power and influence in the South Caucasus. These neighbouring Middle East powers have vied for supremacy and influence throughout the region and especially in their immediate vicinity while both contending with ethnic heterogeneity within their own territories and across their borders. Turkey has long conceived of itself as not just a bridge between Asia and Europe but in more substantive terms as a central player in regional and global affairs. If somewhat more modest in its public statements, Iran's parallel ambitions for strategic centrality and influence have only been masked by its own inarticulate foreign policy agendas and the repeated missteps of its revolutionary leaders. But both have sought to deepen their regional influence and power and in the South Caucasus each has achieved a modicum of success. In fact, as the contributions to this volume demonstrate, as much of the world's attention has been diverted to conflicts and flashpoints near and far, a new great game has been unravelling between Iran and Turkey in the South Caucasus.

The Great Exhibition of 1851 Jeffrey A. Auerbach, 1999-01-01 The book challenges the common view that the Exhibition symbolized peace, progress, prosperity and the emergence of an industrial middle class. Auerbach suggests instead

that the Great Exhibition became a cultural battlefield on which proponents of different visions of industrialization modernization and internationalism fought for ascendancy in the struggle for a new national identity **BOOK JACKET**
